First User Manual

- ★ **User Manuals:** All of our models come with in-depth user manual guides and assembly instructions. You'll also find all the manufacturer's warranty and service details needed.
- ★ **Development:** Our product portfolio includes a wide range of power lift chairs and recliner sofas. The sofas are available in a variety of colours, sizes and with power lift chair and recliner sofa design concepts, all of which are designed to provide comfort and functionality, making them ideal for use in both residential and commercial environments. Our products are made from high quality materials that are safe for the environment and meet UKFR standards.
- ★ **Quality Assurance Process:** Our sofas have a complete inspection process from development to sale. Each model has its own individual product code on the cushion of the chair, and we believe in providing every user with a perfect sense of use and prompt after-sales service.
- ★ **Warranty:** All of our products come with a 12 month guarantee against manufacturing defects under normal use, and an 18 month limited warranty on all on our mechanisms and motors.

Quality

Assurance

A Word in Motion

smooth & silent operations

Providing superior smart furniture solutions to make human life easier.

Pioneering the product concept of one-stop smart solutions in the industry, serving the intelligent furniture manufacturers of more than one-fifth of the world, and establishing localised sales and service networks in 24 countries around the globe, it is the preferred supplier of many world-class brands and a true industry leader.

Innovation

Features

Adopt OKIN motors to better ensure the stability, reliability and consistency of motor operation. Our sofas meet all safety & health standards.

- ★ Infinite position, built-in dual motors, freely adjustable reclining position
- ★ Max reclining angle: 180°
- ★ Resilient foam and fine fabrics for stunning comfort.
- ★ Individually operated backrest and footrest.
- ★ Attentive side pockets.
- ★ Stable steel mechanism to provide you with excellent support.
- ★ Simple to assemble and easy to learn for beginners.

★ Construction Features

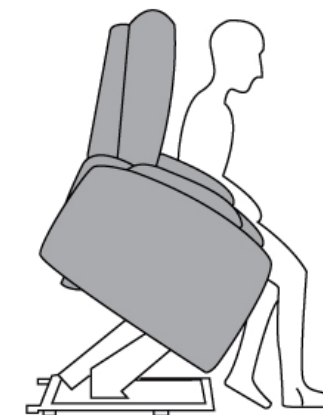

1. Uses industry leading steel frames and lifting actuators.
2. Fire retardant (UK FR Specifications: BS5852 Standards).
3. Highly resilient foam padded backrest.
4. The high-quality metal frame of the base and high-density foam ensure long-term service and a weight capacity of 300 lbs.
5. One Shipping, Faster Sofa Experience.
6. Two side pockets for easy storage.
7. Tightly textured chenille & leather look fabric covers. Chair cover for long term use and comfortable touch experience.
8. Features smooth transitions and quiet recline and lift functions.
9. Customise any lying position you like (maximum lying angle 180° with dual motors).
10. Solid hardwood frame to enhance the durability of the furniture.

★ Achievable Positions

Adjust the angle of sitting and lying with one click, no preset, more intimate

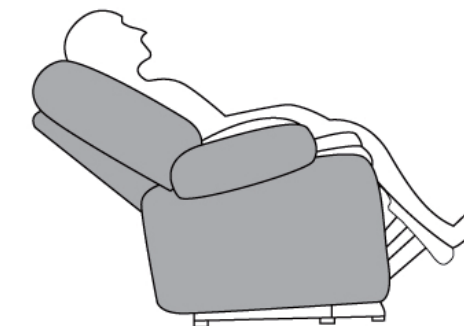

**45°
Lifting**

Electric lift function gently raises the chair from the base for easy standing for the elderly.

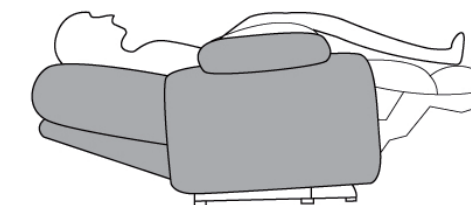

**110°
Watching TV**

TV pose for watching movies or enjoying your favourite apps.

**140°
Reading**

Press the button to smoothly adjust to your preferred reclining position and reading.

**180°
Sleeping**

The dual motor design keeps your body in full extension, relaxing tired muscles in your back or legs and improving blood circulation. The full extension design provides perfect support for your entire hip and leg.

★ Single Motor Remote

Lift-up sofa for unrivalled comfort and relaxation

Relax Your Body
Through the single motor work, drive the linkage, realize the backrest and cushion linkage lifting and lowering.

Our power lift chairs help you unwind, rejuvenate and achieve ultimate relaxation after a busy day.

★ Dual Motor Remote

The dual motor sofa has two motors, each of which is very quiet, smooth and Self-contained. The chair lift works with two motors to lift the entire chair, making it easy for seniors to stand without putting pressure on their backs or knees.

Power lift assisted, free control of body position
The two motors can control the back and seat cushions of the sofa separately, and the dual motors can smoothly access comfortable positions not available in standard power lift chairs.

Press the button to rise the seat and retrieve footrest.

Press the button to descend the seat and unfold the footrest.

Press the button to lift the backrest.

Press the button to recline the backrest.

Savoy

A modern lifting sofa that is easy to operate and has excellent safety features, connected by a seat lifting structure, a seat link slider lifting mechanism and a retractable pole. The user only needs to press a button to achieve the adjusted state. The fabric used for this sofa is a strong and durable chenille fabric with a soft lustre that enhances the user's comfort.

Albury

The position lock of the lift chair is INFINITE, so you can recline to almost any angle within the range (105° - 180°) and stop it at any time. It also offers standing assistance, making it ideal for seniors who have difficulty standing from a seated position. All functions are easy to use with the 4-button remote control. A pocket on each side for storage allows you to carry your belongings. Comes with 2 elongated wooden arm knuckles for better grip whilst lifting up.
