

# UK & Ireland's Largest Furniture Repair Specialist

- » Fabric & leather upholstery
- » Cabinets & wooden furniture
- » Beds & mattresses
- » Mattress inspection
- » Electric & motion furniture
- » Independent reporting

NETWORK OF TECHNICIANS  
SERVICING THE UK & IRELAND

The Emmiera Group Ltd. is Britain's largest and leading upholstery, bed, mattress and cabinet furniture repair specialist.

We are an independently owned company, providing professional on-site furniture repairs for retailers, manufacturers and wholesalers in the domestic and commercial markets - visiting over 25,000 customers per month.

## Full National Coverage

- Over 150 technicians nationwide
- Centrally located head office
- Warehouse and distribution centre
- Dedicated technician training academy

Our strategically positioned technicians offer full national coverage. This enables us to accommodate all of your customers across the U.K. & Ireland with maximum efficiency and a minimum lead time.

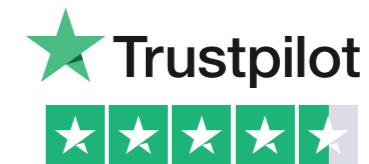

Our commitment to excellence, reliability, and customer satisfaction remains unwavering, and to accommodate our growth we recently moved into our new central head office. Our key facilities now all reside under one roof including our call centre, technician training and warehousing.

## Fully Trained & Experienced In-house Call Centre

- Jobs added quickly and easily by you directly onto our system
- Customers are contacted within 4 working hours
- 96% of calls answered in less than 5 seconds
- Most customers are visited by one of our technicians within 5 working days
- Reports and claims processed within 24 hours

Over 10,200 Reviews  
Rated Excellent

As of December 2025

## Experienced & Fully Trained Technicians

Our industry leading technicians have set the standard for furniture repair and restoration. Every Emmiera Technician we employ undergoes a comprehensive training and induction process. All technicians are trained on-site in our dedicated technician training academy and have to pass a comprehensive 136 point skill-set check.

- 136 point training and induction
- DBS background checks
- Technicians are trained in customer relations
- Technicians carry ID Cards and will arrive in one of our branded vans

# Upholstery Repair

Our experienced technicians can repair almost any kind of upholstery problem in the home during the first visit.

- Frame repairs/castor blocks
- Spring or webbing replacement
- Interior replacement
- Broken feet
- Stitching faults
- Excessive creasing or uneven factory finish
- Fitting of replacement parts: seats, arms, backs
- Leather scuffs and more...

## Motorised & Mechanical

We repair motors, mechanisms, controls and electronics across a broad range of motorised furniture.

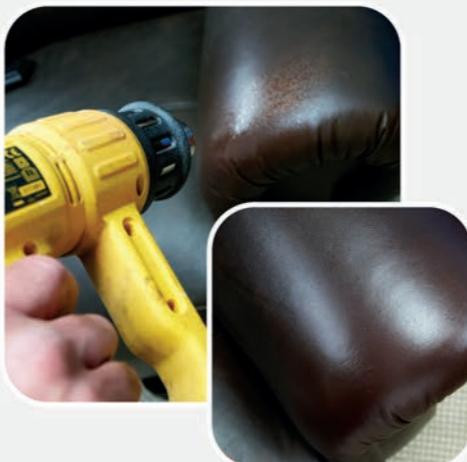

- Recliner mechanism replacement
- Recliner handle & cable replacement
- Power recliner repair
- Electric component replacement
- Motors & control boxes
- Handsets, wires & cables

## Fabric Upholstery

We repair nearly all aspects of fabric upholstery, and where possible endeavour to do so on the first visit.

If damage is too severe and we are unable to cosmetically repair, we can fit parts supplied direct from the manufacturer. We replace the damaged or faulty part on-site, returning the furniture to its original showroom condition.

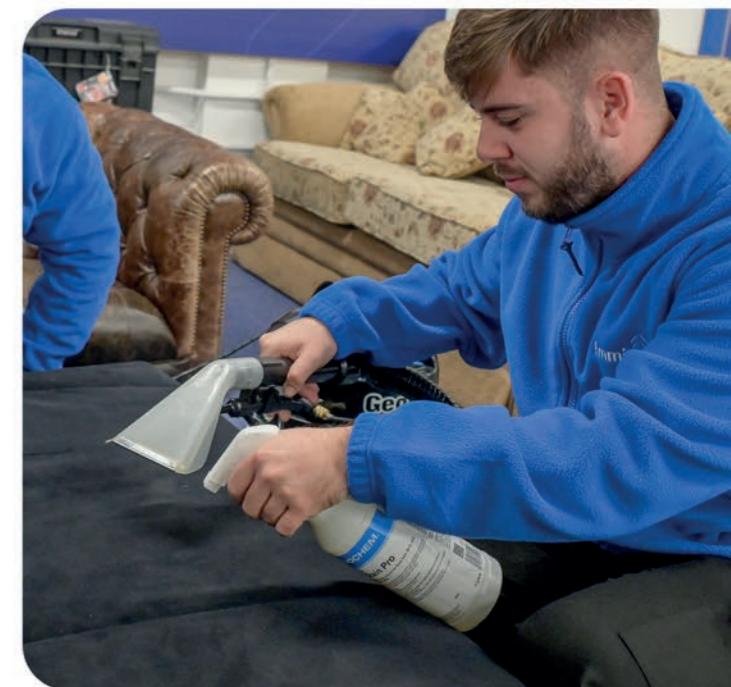

## Leather Upholstery

Almost all aspects of leather upholstery can be restored on-site without parts. Scuffs and scratches can be cosmetically restored, colour loss can be replaced on pigmented leather and top sewing can be re-sewn by hand. If new parts are required, these can be fitted on-site by our technicians. Replacing the faulty parts is often more cost effective and convenient, it eliminates the lead time on replacement goods and removes the risk of further damage during redelivery.

## Upholstery Stain Removal

Removing accidental stains prolongs the life of the fabric and the furniture. Our technicians use specially designed professional cleaning products, equipment and techniques to remove stains and soiling - while minimising the risk of damage to the upholstered furniture.

- Transit stains
- Ink & paint
- Bleaches
- Caustics
- Corrosives & paints
- Super-glue
- Drinks e.g. coffee, cola
- Ketchup
- Human & animal bodily fluids
- Dyes & dye transfer from newspaper print or clothing, including Denim
- All food stuff & drinks

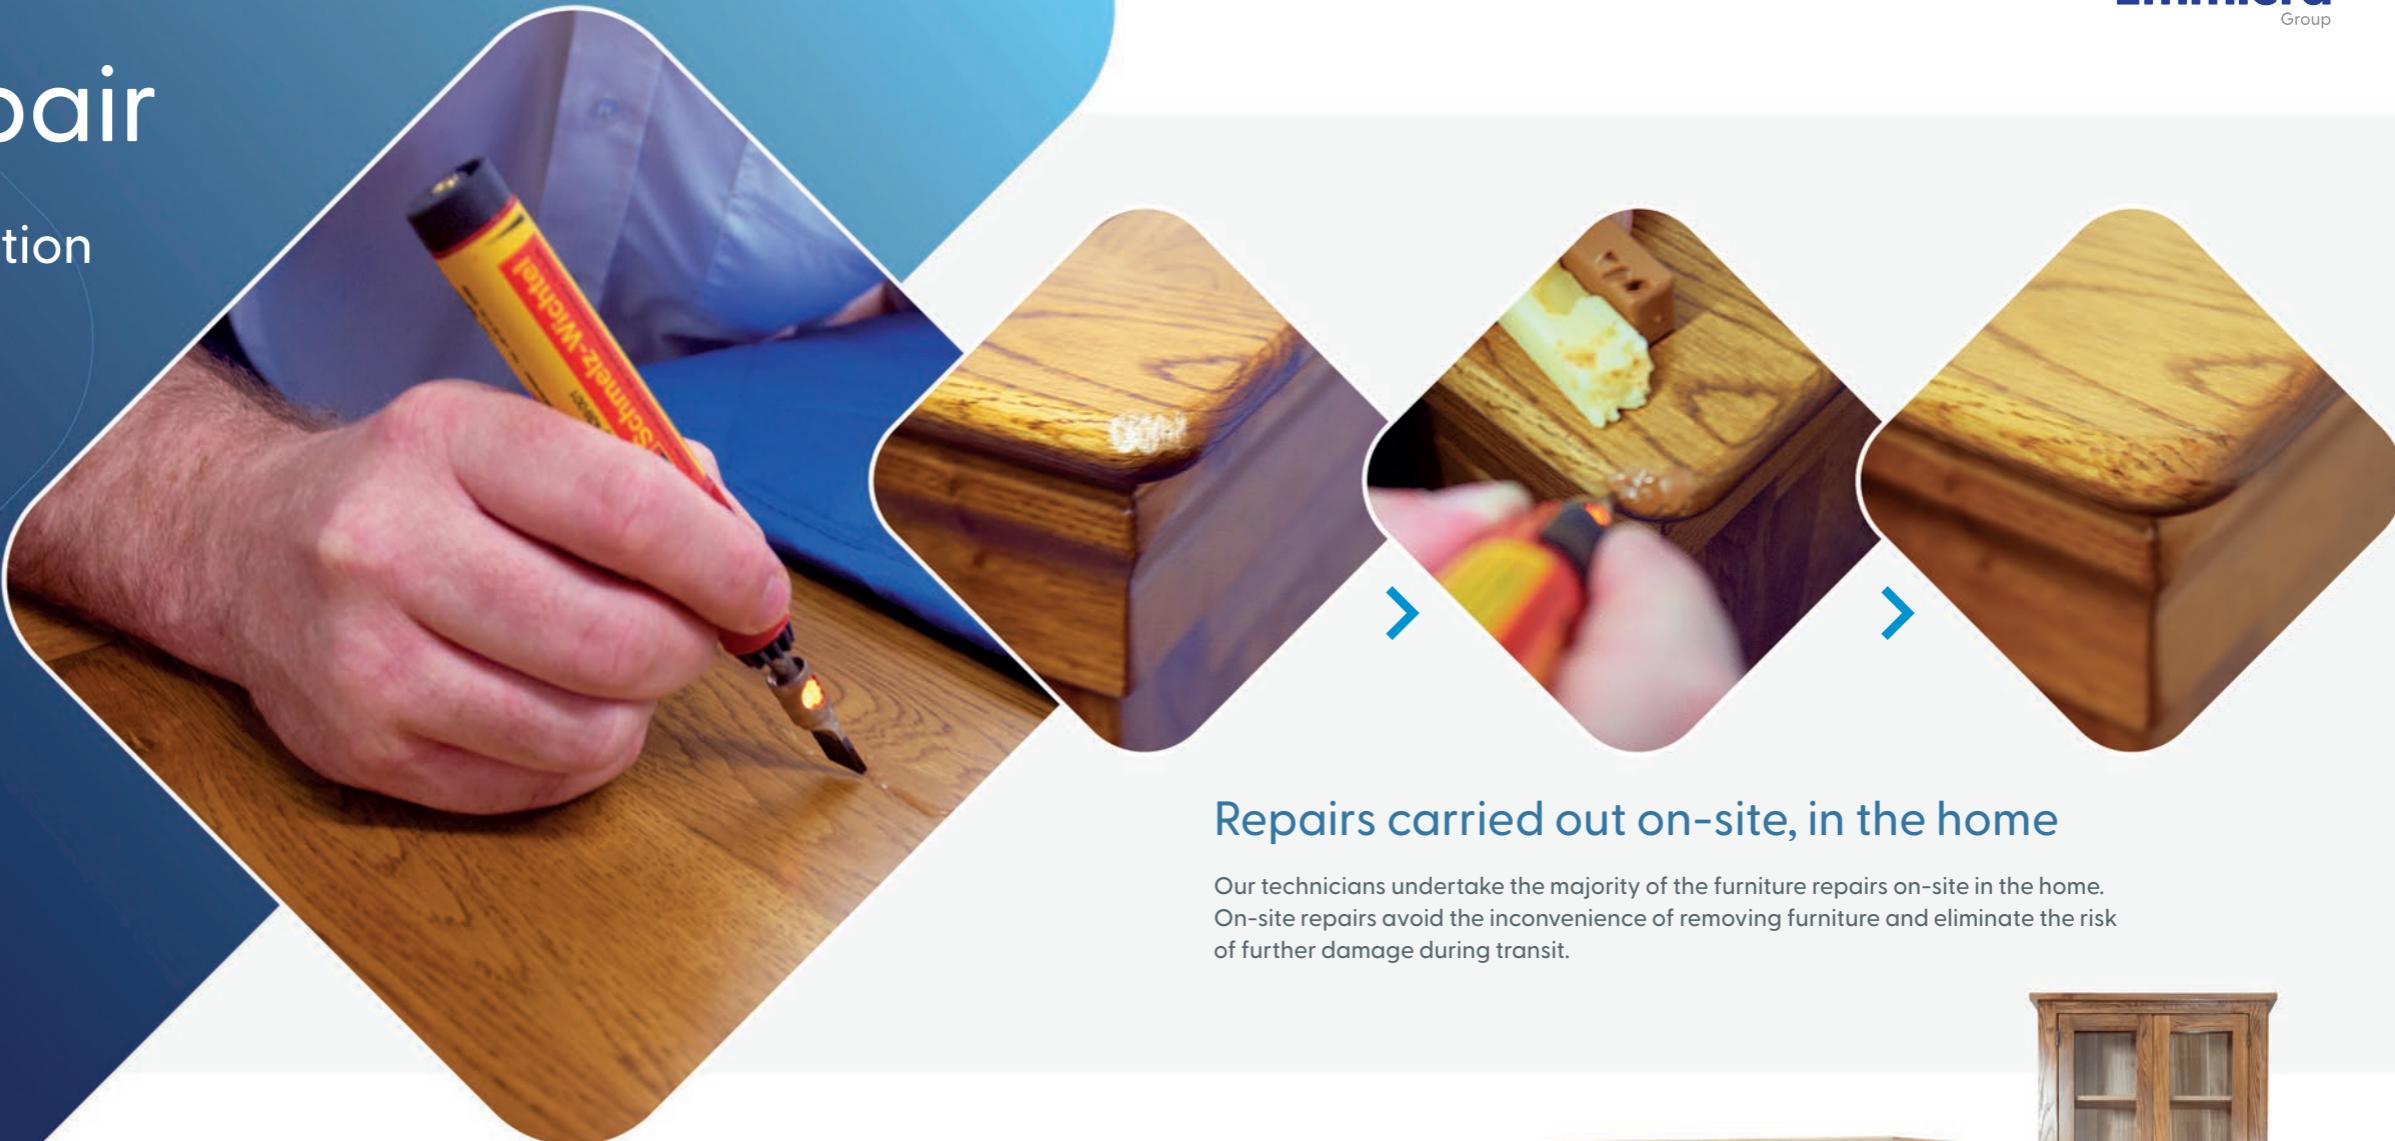

# Cabinet Repair

On-site repair & restoration of all types of surface & structural damage.

From scratches to discolouration, the surfaces of wooden furniture are vulnerable to all kinds of damage.

If wooden furniture is in need of repair or restoration, our technicians restore nearly all types of cosmetic damage and manufacturing faults, in the home.

## Repairs carried out on-site, in the home

Our technicians undertake the majority of the furniture repairs on-site in the home. On-site repairs avoid the inconvenience of removing furniture and eliminate the risk of further damage during transit.

## Painted Cabinets

Our technicians can successfully repair painted cabinets. Even when severely damaged we can repair the furniture as our paint has full coverage and restores all imperfections.

Our technicians carry aerosol paints in all colours, this gives us the highest success rate in achieving a restoration to a showroom standard.

- Dents, Scratches & Chips
- Crush damage
- Split / cracked
- Replacement doors
- Replacement drawers
- Replacement legs
- Replacement handles & hinges
- Door & Drawer Alignment

## Wooden Furniture

We repair all types of wooden furniture finishes for bedrooms, living and dining areas.

- Painted
- Natural
- Waxed
- Oiled
- Lacquered
- Antique Finishes

## Wood & Laminate Flooring

We also repair all types of solid wood & laminate flooring

- Dents
- Scratches
- Chips
- Staining
- Re-finishing

# Bed & Mattress Repair

A comprehensive inspection & repair service for all types of beds & mattresses in the home.

Our technicians use specifically designed tools to help aid in the diagnosis of non-faulty and faulty mattresses. We are trained to educate customers about the tolerance of their mattresses and advise it's expected durability.

Before leaving an appointment, our technicians will provide additional care guidance to help prolong the life of the mattress and reduce the requirement for further repair.

## Settlement Tolerances

SETTLEMENT TOLERANCES					
TYPE OF MATTRESS	AGE OF PRODUCT				
	0-6 MONTHS	6-12 MONTHS	12-24 MONTHS	24-36 MONTHS	36-60 MONTHS
Ordinary /Sprung	2.5cm	3cm	3.5cm	4cm	4.5cm
Memory / Foam	2.5cm	3cm	3.5cm	4cm	4.5cm
Pillowtop	3cm	3.5cm	4cm	4.5cm	5cm

Technicians carry a settlement tolerance guide to assess acceptable settlement versus age of mattress.

## TV & Specialist Beds

- Replacement motors
- Replacement mechanical & electrical components
- Bluetooth set up and configuration

## Mattress Inspection Process

Our technicians follow a formal multi-point mattress inspection process. Assessing wear, tear, any manufacturing faults and measuring the settlement of the mattress over time.

## MULTI POINT

## Tape Edge Seam Restoration

We reupholster the ticking and slip stitch into the taped edge. Resolving the frayed areas on mattresses.

## Tuft Replacement

Repairs to both traditional tufts fitted with twine, and modern tufts fitted with tapes. All technicians carry a popular selection of tufts, twine and various tape sizes as van stock. This enables us to complete a tuft repair on the first visit.

## Divan Drawer Restoration

Damage to divan drawers, such as rails coming away, can stop the drawers on the bed from opening and closing correctly. Aligning the rails and rectifying structural defects will ensure the drawer is restored to a fully working state.

The first furniture repair company to become a NBF member

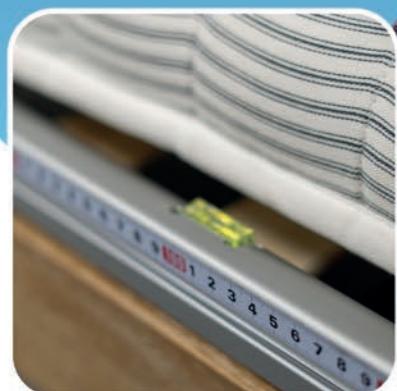

The Emmiera Group Ltd are proud to be the first furniture repair and restoration company to be an accepted member of the National Bed Federation.

# New Digital Mattress Inspection System

Professional, data-driven accurate approach to assessing mattresses in the customer's home.

Our new mattress inspection system modernises the inspection process by replacing outdated methods with a professional, accurate, and data-driven approach. It delivers precise digital measurements, clear visual evidence, and consistent nationwide standards, reducing ambiguity and supporting faster, more reliable decisions.

## Step-by-step Process

A professional, step-by-step process is carried out by our technicians to ensure consistent and replicable results nationwide.

## Comprehensive Reporting

A full comprehensive report with images and videos where applicable will be produced from the Emmiera App with a conclusive outcome. This will be available to view through the Emmiera Online Portal normally within 1-4 working hours of the appointment completion.

## Accurate Digital Settlement Reader

Our accurate digital settlement reader provides precise measurements, especially in small, subtle areas of settlement that traditional measuring cards often missed. It improves measurement accuracy by delivering digital, consistent readings without relying on visual estimation. It detects small variations that manual methods can miss, reducing error and providing reliable, data-backed results.

## Nationwide Consistency

Our standardised inspections process ensures uniform quality and accuracy across all regions and by all technicians.

## Customer Trust and Credibility

Demonstrates professionalism and technical capability, reinforcing the brand as a leader in service innovation.

## Supports Faster, Clearer Decisions

Reduces disputes and accelerates resolutions through objective, reliable measurements.

## Professional Presentation

Enhances customer confidence by replacing outdated tools (string and bean bags) with sleek, modern apparatus.

## Data-Backed Reporting

Our system provides quantifiable results that reduce ambiguity and strengthen liability decisions.

## Visual Documentation

We capture clear photographic evidence to support findings and enhance transparency with customers and clients.

## Comprehensive Reporting

A full comprehensive report with images and videos where applicable will be produced from the Emmiera App with a conclusive outcome. This will be available to view through the Emmiera Online Portal normally within 1-4 working hours of the appointment completion.

# Flatpack Assembly

## We assemble all types of flat packed furniture.

At The Emmiera Group we are pleased to offer you a nationwide all-round furniture assembly service for home, office & workplace.

- **Wardrobes**
- **Chests of drawers**

# Warehouse & Distribution Centre

Dedicated to parts management, storage and distribution.

Our extensive warehouse & distribution centre provides us with the additional capacity to fully manage stock control and distribute all parts and sundries throughout the whole of the U.K.

## Van Stock Sundries

Each of the The Emmiera Group vans are stocked with a comprehensive range of commonly used sundries required for fixing most faults first time on-site.

- Power tools & pneumatic tools
- Hand tools
- Leather repair kits
- Wood repair kits
- Cleaning kit
- Environmental protection
- Sundries & Replacement Parts

## Upholstery Department

Our upholstery department caters for larger upholstery repairs such as leather and fabric panel replacements and replacing zips. If cut and sewn parts are not available, fabrics are sourced directly from manufacturers, helping us to provide a perfect match for your customer's furniture.

We stock a vast quantity of leather hides enabling us to match the grain and quality of most leather types perfectly.

## Technician Training Academy

Our dedicated Technician Training Academy allows us to provide up to the minute training for our technicians. This enables us to keep ahead of the new product developments within the marketplace, ensuring we continue to provide a valuable service to our customers.

# Property Repair Services

We have a network of approved tradesmen and sub contractors offering a full range of property repair services.

- All aspects of delivery damage
- Wood floor repairs
- Walls, plaster and paintwork
- Installation and improvements
- Fire, flood & impact repair
- Storm damage repair
- Painting and decorating
- Electrical installation
- Plumbing & heating repairs

Decorators

Carpenters

Electricians

Plumbers

Surface Repairs

Residential Cleaning

We provide comprehensive property repair and remediation covering all trades. At Emmiera Group we offer complete solutions as outsourced services to business and as direct service to the general consumer.

We are repair specialists for fire, flood, water, storm and vehicle impact damage and offer a remediation service specifically for housing developers.

We can repair all types of property damage using our approved tradesmen including damage to:

Walls - Cracks/Tears

UPVC - Doors/Windows

Carpets & Floors

Radiators

Woodwork

Tiles & Surfaces

Our comprehensive team of vetted tradespeople cover a diverse range of skills and services.

This gives our clients access to a broad range of specialist tradespeople nationwide ensuring the right person is provided for the job at hand.

Each property repair project is managed centrally through our head office and fully documented upon our bespoke project management system for assessment and review.

# Bespoke Web Portal

Our bespoke web portal has revolutionised the way we operate our business.

## Quickly & easily add jobs onto the system:

Easily load appointments onto our system manually or through a private API link (Application Programming Interface).

This dramatically reduces your administration time, and allows you to import and export service requests at the click of a button.

## Real-time reports, updated instantly

- Fully comprehensive reports with images
- Ability to book in and track the progress of all active and previous jobs
- Facility to add notes to jobs at any time via internal messaging system
- KPI reports can be tailored specifically for your requirements, to assist in quality control and expenditure
- Ability to forward reports instantly via internal mail system
- Reports filled in at time of visit and transmitted directly back to the office for checking and saving to the web portal

## Technical manager pre-visit review

Save time and cost with our optional pre-visit review. Our Technical Managers can preview a job before an appointment is booked. The manager will assess the available details and images then advise the best course to a first visit resolution.

- Advise on time required for the appointment
- Identify and pre-order parts required ready prior to visit
- Maximise first call resolution

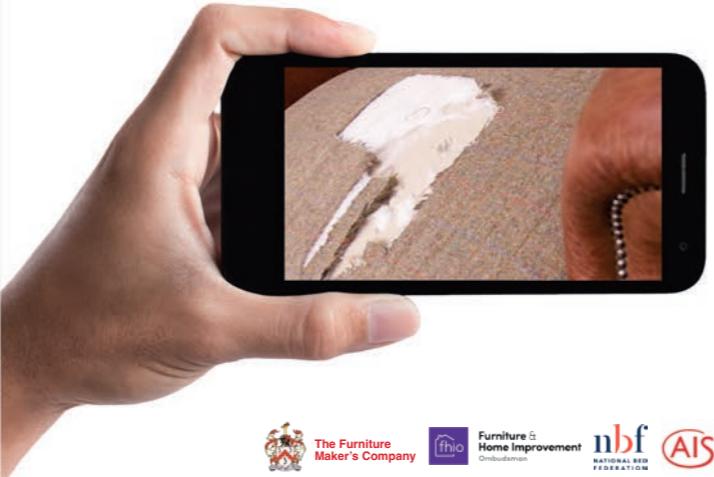

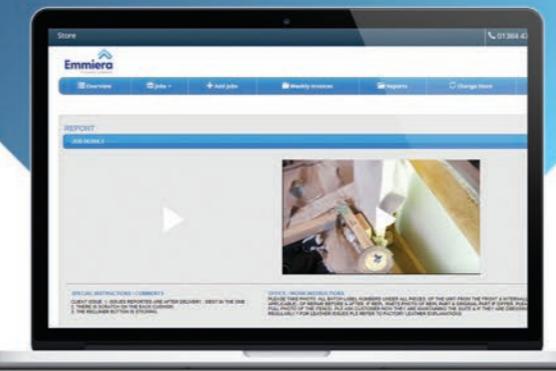

# Smartphone App

Our bespoke Smartphone App, developed in-house by our dedicated IT department.

We strive to lead the field with innovative technology and manage all IT internally which gives us greater control to change, update or tailor our services.

Our bespoke developed smartphone app provides our technicians with a direct link back to the system allowing our clients to access real-time updates on all active jobs.

- Reports are completed in customers homes and submitted instantly, dramatically reducing waiting times
- Digital signature compatibility
- Instant image uploads
- Job history is backed up instantly and securely through our servers ensuring continuity of information.

## Video Reporting

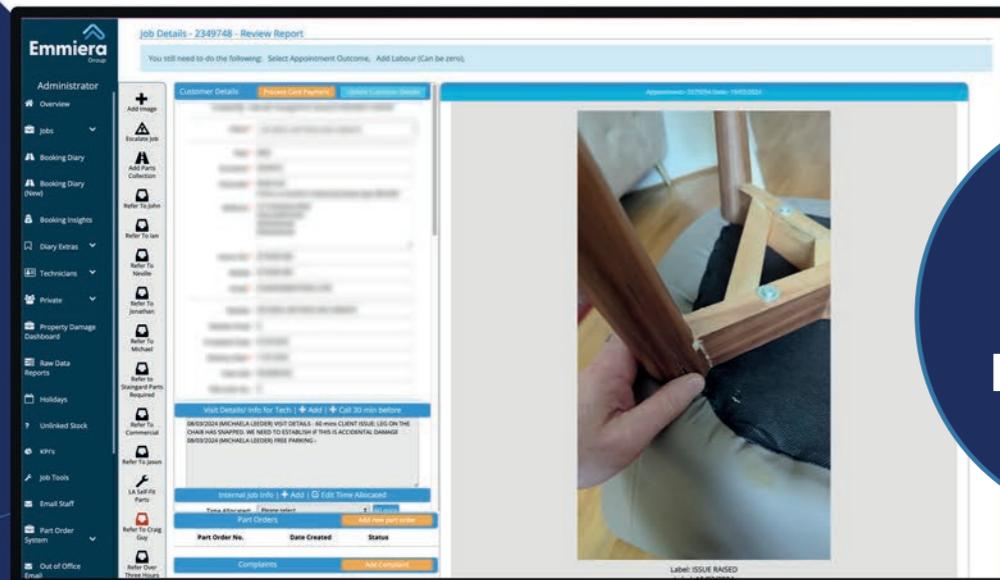

### Quickly and clearly report difficult to identify issues:

All of our technicians carry video enabled smartphones on-site to each job. Recording the key issues throughout each stage is a reliable and accurate way of documenting the work required and the end result.

- Identify creaking framework
- Audible faults such as knocking or scraping mechanisms
- Faulty motion within mechanisms e.g. jolting / jerking

# Triage Process

The process guides the customer through each stage of reporting an issue.

## Maximise First Visit Resolutions

Review submitted information

Validate if issue is covered by client terms and conditions

Pre-order required parts

Prepare job to be resolved on first visit

Our triage process guides the customer through each stage of reporting an issue, providing clear and easy to understand instructions:

Example information is provided to the customer to help them when taking pictures for the issue.

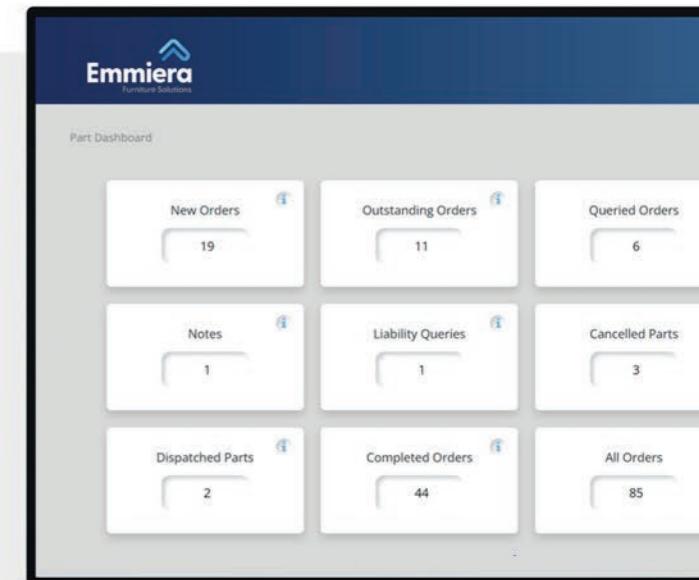

For any information or images that are missing our customer service team will send the customer a link to upload the additional information and images.

# Parts Ordering and Generic Parts Stocking

Revolutionising how parts are ordered and managed.

Our state-of-the-art parts system allows us to monitor supplier lead times and provide management tools to support manufacturers.

- Parts orders with images
- 3 way visibility
- Customer communications and updates at every status change.
- Full details of make, model and colour extracted from the policy
- Label printing facility
- Advise on time required for the appointment
- Identify and pre-order parts required prior to visit
- Maximise first call resolution

# Complete Service Management

# Customer Communication

## Online Booking

Once the job has been added to the Emmiera Group system it will then go through the Technical review process. The customer will receive an email & SMS with a tailored introduction and instruction on how to book a convenient appointment.

Mobile &amp; Desktop access to our Online Booking Form

## Email Notification

When the job is booked on our system the customer will receive an appointment confirmation to say that job has been booked in for the technician to visit their property.

The evening before the customer's appointment they will get an appointment reminder, informing that their appointment is the next day.

## Day of appointment text messages

The first message that the customer will receive provides the details of the appointment with a tracking code.

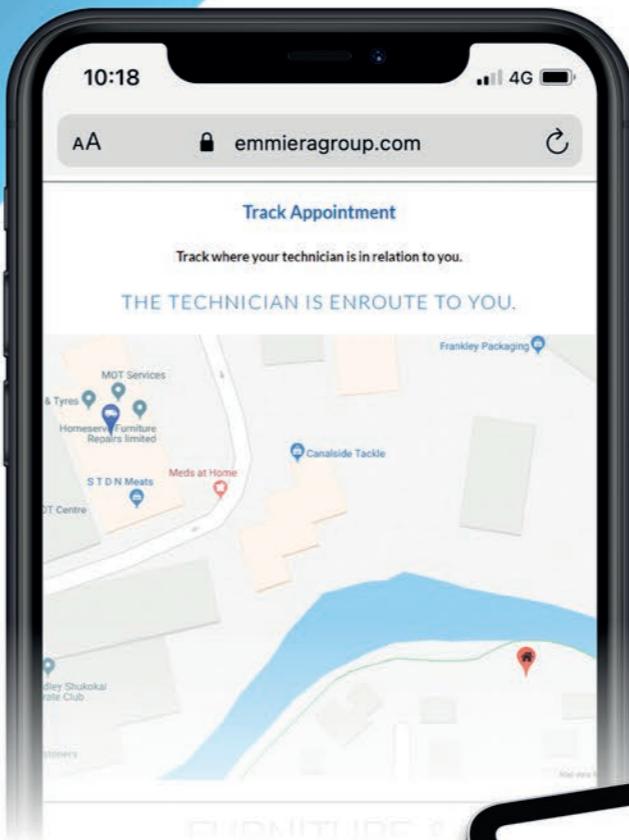

A message is sent to the customer when the technician starts the appointment scheduled directly before them.

A final message is sent when the technician is en-route to the customer. The link, when clicked, shows the technician's location on a real-time map.

Your Emmiera technician has confirmed their appointments. You are first in line and booked into the timeslot of 08:00-13:00.

You can follow their progress at <http://xnf.uk/Rgky>.

Your Emmiera technician is starting a new appointment. You are next in line. They will be with you in approximately 40 Mins - 60 Mins minutes.

## Real-Time Technician Tracking

Using the tracking code provided in the text message correspondence, the customer is able to access a real-time map of the technicians location en-route to their appointment.

- Provide an impressive, modern service
- Decrease the requirement for rescheduling due to customer not being present

## Signature Sheets

### Invalid Claims / No Faults Found Report

This is where the product does not have a manufacturing fault - i.e. Leather natural characteristics - interiors not dressed correctly - colour variance within tolerance - normal wear and tear.

A full explanation will be given to the customer by the technician on-site and the form will be completed and signed by the customer.

### Confirmation Of Work From The Customer

When a job is completed we ask all customers to sign to confirm that the work has been carried out to the customers satisfaction.

We have a comments box if the customer wishes to add any other relevant information. We capture a customer signature to agree that the information contained within the report is correct.

# Independent Comprehensive Reporting

The Emmiera Group Ltd. are an independent company. If we are issued a job from a manufacturer, retailer or member of the public we will complete an impartial, independent, fully comprehensive report on the furniture.

## Professional, easy to understand thorough reporting:

The Emmiera Group Ltd. supply reports of a professional quality. Our reports give complete clarity and cover the following points:

- Item(s) to be repaired
- Faults (high quality images)
- Images before/during/after
- Batch ID labels
- Liability
- Time required
- Work completed or work required to be carried out
- Parts used or parts required and who will supply them
- Customer satisfied

## Liability

This is the most important field as this selects who we deem to be liable for the fault/damage caused. This will either be the manufacturer, the retailer, the delivery partner or due to treatment after purchase. This will come with a professional explanation of how we have determined the conclusion.

## Delivery Damage

This would imply the delivery team has caused the damage from the point of loading the van to entering the chosen room of the customer, comments from the customer need to be included, if outside normal time-scales acceptable for delivery damage - explain why.

*Example – “delivery team had grazed the outside back against the door frame, customer states this was marked on delivery note, I have taken an image of the delivery note”.*

## Manufacturing

This implies the fault(s) has been a direct result of a manufacturing defect or the furniture has not withstood the standard guarantee. Please refer to specific client guidelines for warranty / guarantee

*Example – “the seam has split on the seat, this is due to the thread breaking”.*

## Transit / Supplier Damage

This would imply that the manufacturer or their transport were responsible from the point of packaging process to when it was delivered to the retailer.

*Example – “leather is scuffed but no damage to the packaging was present and no issues entering the property by the delivery team”.*

## Invalid claim

This would imply there are no faults or accident damage to the furniture and it is all correct. This would be professionally explained to the customer why we have reached this outcome, and an invalid signature sheet must be completed.

*Example – “I have weighed the hollow fibres all the interiors, all interiors match the specification of the manufacturer.”*

# Account Management

## Dedicated Account Managers are available at Head Office when required.

Your Dedicated Account Managers are on hand at our Head Office to deal with any account queries, technician issues and any other support needed. Account Managers are also available for review meetings, to take an in-depth look at your account data - identifying efficiencies and areas for development.

The Emmiera Group Ltd. will implement a dedicated team leader in the office to deal with all booking and customer service queries. Most of all we want to build the relationship between the 2 companies. Our head office currently employ a team of 80 support staff.

# KPI Reports & MI Data

We provide valuable key performance data reports to help improve our service to each and every client.

We are committed to helping our clients operate more efficiently by providing valuable data in key areas. We work closely with our customers to analyse the reports and identify areas where efficiencies can be made and operating costs can be reduced. Our reports help identify areas where products can be improved and faults can be reduced.

## Key Performance Reports

Example report showing regional breakdown percentage of furniture repairs across the UK for a major furniture retailer.

### Contact Time

Key report detailing overview of the average time from when a job is added to the system to the first contact with the customer.

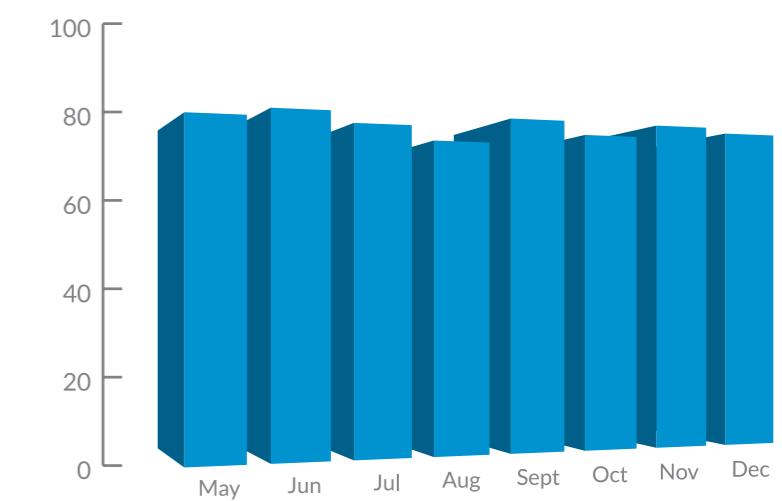

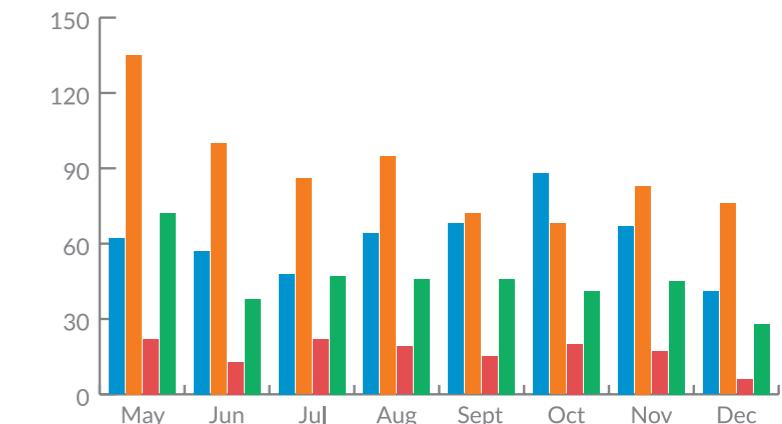

### Lead Time

A full detailed report is available with our lead times. This is calculated from when the job is added until the technicians visit has taken place.

Lead time reports are available to view on our system and as a downloadable Excel spreadsheet.

### KPI Information Data Reports

- Total number of jobs added
- Appointments booked
- Lead time on appointments
- First time fix performance
- Report outcome breakdown
- Fault percentage by product
- Cost breakdown
- Geographical breakdown
- Customer satisfaction survey ratings
- Bespoke client reports

### Fault Codes Report

This shows a breakdown of liability codes - manufacturing faults, delivery issues, invalid claims etc.

### Top Manufacturers / Models

This gives you information on the top 10 manufacturers and models - detailing the faults for each product.

### Performance Report

Performance of all jobs broken down in categories of outcome. This report provides data on first visit resolution, second visit resolution and jobs that require further action.

The data is available in Excel or chart format.

### Bespoke Reports & KPI Packs

We can customise any report that is required, tailoring it to your specific needs.

# Working Smarter

## Business Security & Continuity

- All portal data is backed up on secure servers based in the UK
- All calls are recorded for training, monitoring and traceability
- BT One Phone back up available within the office in case of Telecom failure
- Secondary fibre optic connection in case of primary failure
- Laptops and tablets are available for use in case of power failure
- In house call monitoring system
- All technicians wear Emmiera uniforms, carry identification and are DBS checked

## Building Partnerships

We work closely with some of the industry's leading brands in retail and manufacturing across the U.K. & Ireland. The Emmiera Group continually strive to develop new relationships and would be proud to partner with you.

## We Guarantee

- Every repair that we make
- Integrity, politeness, professionalism and honesty
- Fully trained staff in all aspects of furniture repair & restoration

# Our Technicians

## The Public Face of Emmiera

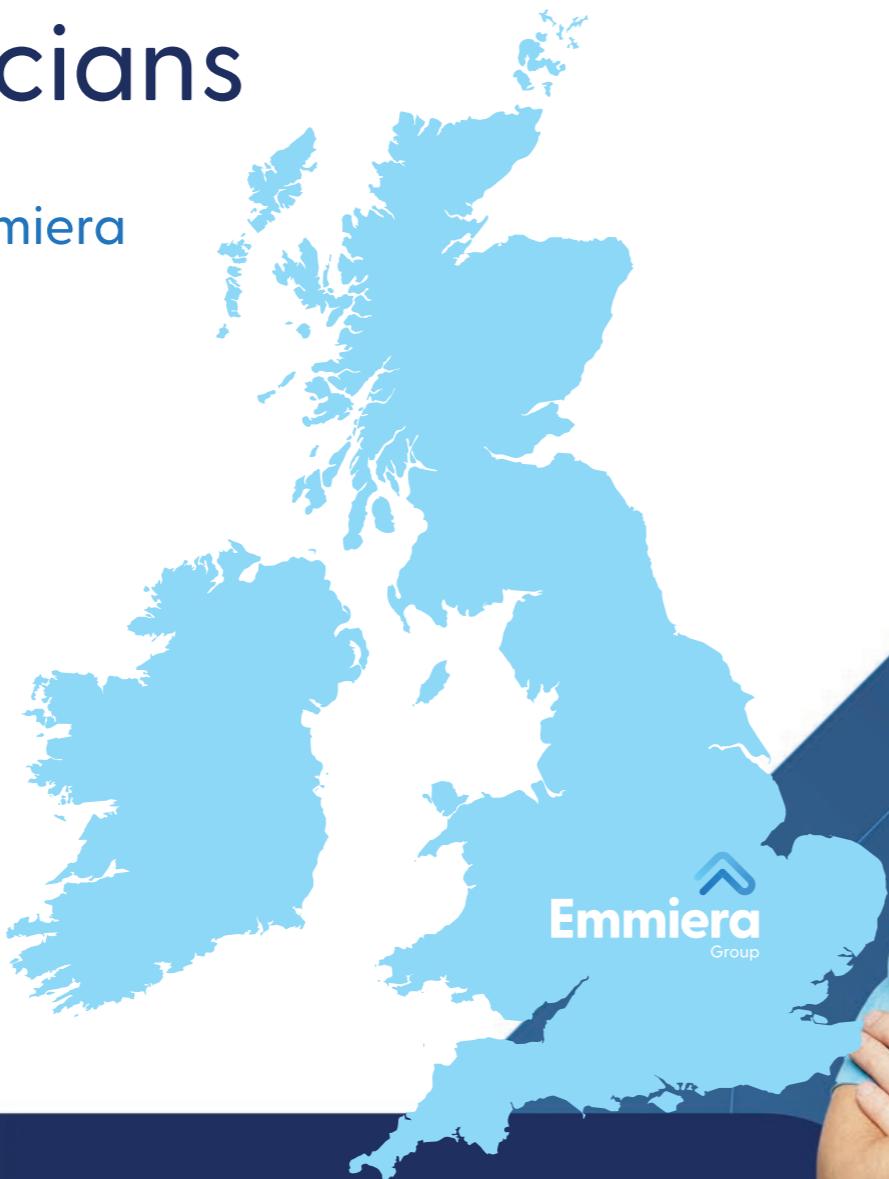

- Over 150 technicians nationwide
- Centrally located head office
- Dedicated technician training academy

### Expert Skills, Clear Communication

Our technicians combine expert technical skills with a commitment to clear, empathetic communication. We don't just fix the problem, we ensure customers stay informed and supported every step of the way with professional, personable service.

### 136 Point skill-set sign off

All technicians undergo a 136 point skill-set sign off spending a minimum of 8 weeks in our training academy, which covers restoration skill-sets, customer service, terminology and communications.

### 150 Technicians throughout the UK

✓ Central South	✓ South West	✓ Scotland
✓ Central London	✓ North West	✓ Republic of Ireland
