# Harrington Mills

## A historic home for Carlton & Vintage

*Harrington Mills was constructed in stages between 1885 and 1887 as part of Long Eaton's booming lace industry. Built of red brick with towering cast iron windows and distinctive stair turrets, it was one of the largest tenement lace factories in England.*

Built in the heart of Long Eaton's rich industrial heritage, Harrington Mills has become the perfect home for the Carlton Furniture and Vintage Sofa Company. The Mill offers the perfect showroom environment to showcase our furniture ranges. It's a space that allows our collections to be seen in surroundings that echo quality, longevity and attention to detail.

Visits are available by appointment, with the opportunity to view ranges up close and speak with our sales team.
