

# SUSANNAH BLEASBY

Hello! We're Susannah and Nicola, a small but mighty sister duo dedicated to sending colour into the world. We create fine art prints, greeting cards and gift wrap to light up your walls and make you and the people around you smile.

Our joyful greeting cards feature bright breezy skies, contemporary florals and abstract imagery. They're beautiful art cards that can be used for every occasion and make wonderful note cards to share with a friend. Each card is blank inside, ready for your words.

All our prints and cards start life off as large-scale paintings, created by Susannah in her studio in Hamilton, Canada.

Browse our collection and find your perfect bloom or ideal sky. There's something for every season, for every day and every occasion.

Painted in Canada. Designed and produced in the UK.

## Abstract Skies

*Susannah's signature breezy and expansive cloud-filled skies. Full of wonder, informed by the strength and wisdom of the natural world, these skies inspire and tap into a lightness, a hopefulness, and a joy of being.*
