Hello New!

Please say hello to our new selection of high-quality fashion stationery for 2023-24. These retail-ready collections are carefully curated with current colours and surface pattern trends across the most popular formats. In short, everything you need in gift stationery, in one place!

We are proud to manufacture in England, but we also offer a full service from our partner factories in Europe and further afield - a solution for all buying calendars and budgets.

Please come to see us at Top Drawer - Sunday 15th to Tuesday 17th January - Stand O31. Equally we would love to introduce you to the design and production teams in our new factory and showroom.

Our story..

Charfleet Stationery creates high quality stationery collections for retailers and brands across the UK and worldwide.

If you are looking for bespoke, own brand stationery, our design team can develop your brand across a wide range of formats, including diaries, journals and notebooks. These are manufactured in our factory with paper, linen or leather coverings, embellished with embossing, foiling and gilt page edges.

We are proud of our 130-year history of expertise in stationery manufacturing. The story continues today with significant investment in a new, purpose-built factory and bindery, opening in January 2023.

COLLECTIONS 2023-24

HENLEY

pages 4 - 5

Hand drawn stripes, bold large polkas in classic navy and red, combine with striking florals and gold foil embellishments.

pages 6 - 7

Echoes of Japanese florals repeated over this season's latest colour - digital lavender. Hand-drawn polkas complement the floral repeats.

SECRET GARDEN

Dark backgrounds covered with an exuberant, hand-drawn flora and fauna pattern, create a look that's bold, chic and sophisticated.
