Jewellery Chains

The essential accessory!

No need to search for your phone at the bottom of your bag or on your desk, it's with you all of the time. Perfect for having your hands free while doing other things, our chains can be worn crossbody or as a necklace.

Our jewellery chains measure 120cm and are made of ultra-resistant resin with golden carabiners. You can remove the chain easily at any time and change it according to your outfits and your desires. You can also adapt your phone regardless of make with any of the different chains that we offer or stay with a strap style of your choice that suits your daily needs.

Adaptors

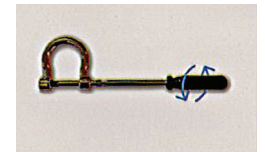

We also have universal adapter sets which allow our chains, straps and cords to connect to any mobile phone and case.

Before you start: Make sure your case is compatible with the universal adapter. Compatible cases completely cover the edges of the phone.

Step 1: Unscrew the bar using the supplied screwdriver.

Step 2: Position the adapter between your phone and your case by passing the adapter attachment through the opening of the charging port.

Step 3: Put your case back on and position the metal ring in the universal adapter attachment.

Step 4: Screw the bar back and then turn the ring inside the adapter attachment. Attention: Remember to check regularly that the bar is not loose.

Step 5: Attach your chain to the metal ring.
