Cosmétique naturelle

EDITO

Welcome to 2023!

Naturalness, eco-design and creativity. For over 20 years now, our team has been committed to bringing you ever more natural, responsible and innovative cosmetics.

This year, the city of Marseille, birthplace of Panier des Sens, and its ancestral craftsmanship are in the limelight with a liquid olive soap in a vibrantly neon blue limited-edition glass bottle to match the city's lights!

A lovely refillable and decorative object that is perfectly in line with our eco-responsible approach for cleaner and more sustainable cosmetics. It completes our collection of refills, eco-refills, bulk products and solid cosmetics, such as the first solid conditioner that we recently launched!

This is how we continue to innovate in a sustainable manner by combining naturalness and beauty. True to this tradition, we are proud to add new expert moisturizing and radiance care products to our Radiant Peony face care collection, and soon, we will launch a unique care product collection! A creative spirit that we nurture for each of our universes. Therefore, given the success of our new scented and eco-designed objects for the home, Panier des Sens will affirm its perfumer expertise this year again with a new home fragrance!

Thanks to your trust, Panier des Sens continues to grow in France and abroad, through ever stronger partnerships and now with the opening of our first franchises.

Thank you for your support,

Jérôme Lambruschini

Founder and President of Panier des Sens

ACTIVELY-COMMITTED, RESPONSIBLE NATURAL BEAUTY

Our face and body cosmetics contain between 95% and 100% ingredients of natural origin.

Panier des Sens develop for almost 20 years its product skills with the masters soap makers from Marseille and parfumeurs from Grasse unique know-how.

It is with the same conviction and a true commitment to cleaner and more sustainable cosmetics that we develop our formulas imagined and manufactured in France using short circuits.

NATURAL COSMETIC

Since 2009, our formulas enriched with raw materials of natural origin are clean. They comply with a stringent formulation charter. Our face and body cosmetics contain between 95% and 100% ingredients of natural origin.

MADE IN FRANCE

Our authentic care products, packed full of the goodness of Provence, are inspired, imagined, manufactured and packaged using short circuits ensuring enhanced traceability.

FRAGRANCE FROM GRASSE

All our fragrances are created by master perfumers in Grasse, birthplace of the world's Fine Perfumery, where their perfume-related know-how has been listed as Intangible Cultural Heritage of Humanity by UNESCO. With exceptional natural raw materials, they are exclusive to the brand.

SUSTAINABLE AGRICULTURE

Our charter of formulation reconciles nature and research to offer the best of the efficiency, and the sensoriality to all the skins.

With the utmost stringency and a desire to protect our heritage, we select the best regional producers through sustainable partnerships. Our commitment: respect the essence of matter to extract the best active ingredients and ensure the irreplaceable quality of our products.

VEGAN FRIENDLY

Our plant- and mineral-origin ingredients, as well as our formulas are never tested on animals, pursuant to European regulations. All our ranges are vegan friendly except the Honey collection that contains ingredients from beehives.

Panier des Sens is now engaged in the "CERTIFIED VEGAN" certification process. This means that our new Home Fragrance candles are certified and that new references will follow later on this year.

CREATING FORMULAS THAT ARE INCREASINGLY CLEANER FOR CONSUMERS AND THE ENVIRONMENT

We are committed to providing you with the best balance between natural qualities, sensorial attributes and environmental responsibility. The formulas are designed and perfected to offer you efficient care with unique and subtle fragrances. If there is the slightest doubt about an ingredient, whether for the skin or the environment, we systematically remove it from our formulation charter. This ongoing monitoring enables us to regularly review the composition of existing products and constantly renew our product catalog.

ECO-DESIGN

RECYCLED AND RECYCLABLE PACKAGING

We systematically ensure the recycling of products and prioritise recycled materials. In 2022, this represented 13.9 tons of virgin plastic saved and 83% of aluminum recycled!

Our packaging, as well as our communication media, are supported by independent certification bodies, as such, offering a guarantee as to the origin of the raw materials and the manufacturing processes.

We pursue our eco-responsible approaches with ever greater ambition and genuine concern for protecting the environment.

MOVING TOWARDS ZERO-WASTE CONSUMPTION

Our collection of solid cosmetics, soaps, shampoos and conditioners, is part of an anti-waste approach thanks to minimalist packaging entirely recyclable. They have a long shelf life and their soap residues have no negative impact on the environment.

All our solid soaps are RSPO (Roundtable on Sustainable Palm Oil) certified. We were therefore granted RSPO (Roundtable on Sustainable Palm Oil) certification for all our solid soaps. For some natural raw materials from developing markets, whose production is not always very transparent, we must guarantee sustainable and responsible supply chains in line with the values of our brand and our products.

The palm oil produced, processed and used in their creation meets very specific Corporate Social Responsibility (CSR) and sustainable development requirements and volumes can be traced throughout the supply chain.

BULK SALES

In 2016, our concept of bulk-selling liquid soap was created in our first store in Aix-en-Provence. This refill system, then rolled out in other points-of-sale, offers bottles a second life and limits domestic waste. This year, we enhance our offer with bulk sales of shower gel!

REFILLS AND ECO-REFILLS

We offer refills and eco-friendly refills for liquid soap, diffusers, home fragrances and deodorants. Using an eco-friendly refill is a real helping hand for the environment that reduces the use of plastic by 65%, CO² emissions by 36% and greenhouse gases by 39% compared to using an original bottle.

In 2020, we joined the 1% for the Planet association, an international movement of entrepreneurs engaged in a new economy, which is more respectful of people and the planet. As such, we donate 1% of revenue from our Green collection (eco-refills) to partner environmental protection organizations.

The Conservatoire d'espaces naturels PACA protects the great diversity of landscapes, natural environments, animals and plants in the region by developing national action plans and programmes to protect endangered species.

France Nature Environnement Provence-Alpes-Côte d'Azur brings together virtually 300 associations for the protection of nature and the environment. Its mission is to ensure community expertise is voiced to public authorities, to be a source of proposals for a greener environment and to call public attention whenever the environment is threatened.

PROMOTING BIODIVERSITY

We have given our CSR policy a great new boost by developing a 3,000 m² permaculture garden outside our premises located right in the middle of Marseille. Key raw materials used in the composition of Panier des Sens' formulas, such as olive, almond and grape, are planted there, along with rare species endemic to Provence, such as aromatic plants and fragrant plants.

This one-of-a-kind ecosystem, autonomously managed thanks to a rainwater recovery system, was imagined to make this space a home for cultivated biodiversity and an oasis of friendship and wellness.

The key purpose of this participatory project is to improve our employees' working environment and, at the same time, raise awareness to environmental and climate issues.

OUR SOCIETAL INITIATIVES

For over 10 years now, our gift boxes and sets have been put together in ESATs (French vocational rehabilitation centers). Vocational rehabilitation centers are establishments that enable people with disabilities to exercise a professional activity while benefiting from medico-social and educational support in a protected environment.

In addition to contributing to the solidarity-based economy, we organize get-togethers between people who have been working for Panier des Sens for years in ESATs and our employees. These occasions for discussing and sharing are also opportunities for making our employees aware about tackling exclusion.

OUR DISTRIBUTION

*With several boutiques
in France as well
as in China and Hong
Kong, our stores
awaken the senses.*

Thanks to you, Panier des Sens is growing, with increasingly selective distribution and a network of its own stores ensuring the brand's reputation and visibility. A true sensory voyage, the Panier des Sens stores are inspired by the herbalists of Provence, illustrating our philosophy as a trader and grower and featuring authentic and elegant apothecary furniture.

FRANCHISE

Following a host of requests and to facilitate Panier des Sens' international reach, we are moving into franchising with partners who share our values.

Following the opening of 5 boutiques in China in 2021 (including 3 in Shanghai), we opened two flagships stores in Hong-Kong. In France, the brand is in full expansion with a first franchise that will open in Nancy late 2022, followed by two more in the south of France in early 2023. A great way to continue our olfactory adventure and to promote natural made-in-France cosmetics on a worldwide scale.

*An exceptional
olfactory journey around
eco-designed, natural
and sensorial products.*

Panier des Sens confirms its expertise with a new complete collection of three home fragrances: candles, diffusers, and universal refills (for diffusers and perfume).

A symbol of the art of living and sensuous pleasure, this brand-new series celebrates three major olfactory families: Floral, Fruity and Woody.

THE SCENTED CANDLES

NATURAL AND ECO-DESIGNED

Light up your home with warmth and harmony. Designed in partnership with renowned perfumers, these candles are developed with special care.

From the choice of raw materials and laboratory testing to the blending of pure vegetable waxes, as well as choosing the perfect wick, candle perfume is the result of a multi-step process marked by unique craftsmanship.

AT THE HEART OF THE FORMULA

- 100% vegetable wax
- Hand crafted by wax makers
- Burns 50 hours

AT THE HEART OF THE PACKAGING

- A generous format
- Recyclable and reusable glass jar
- 100% cotton wick

THE REED DIFFUSERS AND ROOM SPRAY

Unique and eco-designed interior fragrances.

Panier des Sens fragrances express an olfactory singularity, a true creative freedom that evokes unique horizons. Ever closer to nature, respectful of both consumers and the environment, these products are formulated with a vegetable alcohol base sourced from beets, wheat, and sugar cane. They contain over 90% natural ingredients. They are bottled in refillable and recyclable glass.

REED DIFFUSERS FOR CONSTANT AND SUBTLE DIFFUSION

- Made from 90% natural ingredients.
- Formulated with vegetable alcohol sourced from beet, wheat, and sugar cane.
- Refillable and recyclable glass bottle.

ROOM SPRAYS FOR A TARGETED, STRONGER AND RENEWABLE OLFACTORY TOUCH

- Made from 90% natural ingredients.
- Formulated with vegetable alcohol sourced from beet, wheat, and sugar cane.
- Refillable and recyclable glass bottle.

THE UNIVERSAL REFILLS

The Home Fragrances collection is eco-designed and offers a universal refill in recycled and recyclable plastic, designed to fill both diffusers and home fragrance bottles. Thanks to the refill, bottles get a second life and can be refilled endlessly, which in turn helps limit waste.

EASY TO USE

Once you've washed and rinsed your hair, wet the conditioner bar thoroughly. Rub the conditioner on the hair lengths down to the tips (but not on the roots) in smoothing motions until it forms a creamy texture. The conditioner does not lather. It deposits invisible material on your hair fibre. Leave in 1 to 5 minutes. Be kind to our planet, turn the water off. Untangle hair using your fingers or a comb. Rinse. Don't forget to let your conditioner bar dry after use and avoid contact with water so that it will last longer. Between each use, store your conditioner bar in a dry place at room temperature, away from any heat sources and direct sunlight.

FACIAL CARE

Radiant Peony Hydration and Radiance

INGREDIENTS
97% > 100%
OF NATURAL ORIGIN

The Radiant Peony collection combines naturality and efficiency for a deep hydration and a beauty radiant complexion. Each product is made of a combination of active ingredients.

SOFTENS FRENCH PEONY EXTRACT

Grown and harvested in France, the antioxidant formula contains paeoniflorin which brings it softening, restructuring and remineralizing properties. It helps fight skin ageing.

MOISTURIZES ROSE OIL

As it is rich in linoleic acid, vitamin A and fatty acid, it nourishes and protects the skin and tackles skin aging through its antioxidant properties.

MOISTURIZES HYALURONIC ACID

Naturally present in the skin, it rehydrates deeply. At once firming and smoothing, this exceptional anti-aging restores skin suppleness and youth. Its plumping effect reduces the appearance of wrinkles and fill in fine lines.

RADIANCE BOOSTER ROSE WATER

Its purifying and moisturizing properties stimulate and tone skin. Skin is smoothed and revitalized, and face is radiant again.

RESTORES RADIANCE PINK CLAY

Restores radiance: Rich in minerals and trace elements, pink clay is reputed for its purifying and detoxifying properties. It rebalances and remineralizes the skin, refreshes the lines and restores radiance to the complexion.

EXFOLIATES RICE POWDER

The extra-fine rice powder efficiently exfoliates skin thanks to its hard particles. It eliminates dead cells and impurities while keeping skin soft and very comfortable during application.

SOOTHES CORNFLOWER WATER

Perfect for eye care, has a soothing action that helps to reduce redness and signs of fatigue. It gives an immediate goodlooking effect.

EXFOLIATES ROSEHIP POWDER

Sourced from rosehip fruit, this powder exfoliates gently and thoroughly. Its purifying properties cleanse and eliminate dead cells for a more radiant skin.

REGENERATES SUCCINIC ACID

This organic exfoliant keeps bacteria responsible for acne from proliferating, it boosts the natural peeling process and helps eliminate dead cells and regulate sebum.

FACE AND BODY MEN CARE

L'Olivier Hydration and Energy

L'Olivier combines the nourishing, soothing power of organic olive oil from Provence with a unique blend of active ingredients to offer naturalness and effectiveness.

NUTRITION **ORGANIC PDO OLIVE OIL FROM PROVENCE**

Olive oil from Provence, which is the pride and joy of this region, is an ancestral beauty secret used since ancient times for its nourishing, protective and antioxidant properties. It helps regulate skin moisturization by boosting the hydrolipidic film. The 100% organic PDO olive oil used in the L'Olivier range is grown and harvested in Valensole, in Haute Provence, in France.

ABSORPTION **BAMBOO POWDER**

Bamboo powder contains silica and is an excellent natural absorbent. It's a can't-do-without active ingredient for keeping skin fresh and protected all day long.

SHINE WHEAT PROTEIN

Rich in natural keratin, wheat protein nourishes and strengthens hair. The hair becomes soft, smooth, shiny and easy to style.

ENERGY **ORGANIC PRICKLY PEAR**

An essential active ingredient for skin and hair care. It tackles skin dehydration by boosting the hydrolipidic film and makes hair shiny and bouncy.

STRENGTH **NETTLE EXTRACT**

With its naturally high concentration of vitamins and minerals, this fortifying and beautifying hair product encourages hair growth. It tones the scalp and fights dandruff. It is also a great purifying agent as it helps regulate sebum in greasy hair.

PROTECTION AGAINST ATMOSPHERIC POLLUTION GLYCOFILM POLLUSTOP

This anti-pollution active ingredient provides 30% more protection against carbon particles and reduces cellular and mitochondrial toxicity of the different layers of the epidermis 54%.

COMFORT **ORGANIC ALOE VERA**

The aloe vera leaf contains a gel rich in trace elements, sugars, vitamins and amino acids. When ground into a powder, it soothes the skin while helping it to maintain a good level of hydration.

MOISTURIZATION **HYALURONIC ACID**

This active cosmetic ingredient is naturally present in the structure of the skin. Its moisturising properties return radiance and softness to the skin. It captures and holds water molecules in the upper layers of the epidermis, leaving the skin taut and plump, making it effective against signs of ageing.

ANTI-POLLUTION FACIAL GEL CREAM

*** In vitro test. Reconstituted epidermis subjected to a cytotoxic dose of dichloromethane. Mitochondrial toxicity evaluated by spectrophotometry.

**** Evaluation of deodorant effectiveness on 11 men aged between 57 and 69 years old, 8 hours and 24 hours after application.

1. SHAVE BEARD SOAP

A 3-in-1 product to cleanse the face and beard, prepare it for shaving and soothe the skin.

SHAVING SET

This set, comprising shaving soap and a stylish artisanal-made terracotta bowl, is proposed in an elegant black and gold pouch.

2. CLEANSE CLEANSING GEL FACE, BODY AND HAIR

A 3-in-1 product to gently cleanse the face, body & hair while leaving behind a subtle fragrance.

3. MOISTURIZE ANTI-POLLUTION FACIAL GEL CREAM

A 3-in-1 product that offers intense moisturization, protects the skin from external stresses and calms razor burn.

4. PROTECT & SOOTHE NATURAL DEODORANT

Made with 100% of natural origin, this roll-on deodorant with long-lasting effectiveness fights odors and keeps skin fresh all day long.

DEODORANT REFILL

This eco-friendly refill can hold up to 3 times the amount of L'Olivier natural deodorant.

5. PERFUME EAU DE PARFUM

This fragrance has all the elegance of an intense perfume, blending warm wood notes with sensual musk. With refreshing Mediterranean marine notes, it delivers a contrasting fragrance that blends light and dark, inspired by olive wood.

Softening

Wrapped in its soft green velvet shell, the almond has been used for its cosmetic properties since ancient times. It is high in vitamins and unsaturated fatty acids and renowned for moisturizing and soothing skin, keeping it soft and protecting its hydro-lipidic film. The almond used in our collection is sourced on the Valensole Plateau, an almond-growing hotspot renowned for its premium quality.

ORGANIC HONEY FROM PROVENCE

2 NATURAL INGREDIENTS

Regenerating

Soothing

This nectar from Provence, highly-concentrated in natural active ingredients, is reputed for its moisturizing, nourishing and regenerating properties. Thanks to its high sugar content, honey locks water molecules in the epidermis, boosts moisturizing and stops skin feeling dry. This range, combined with the antiseptic, antibacterial and antioxidant properties of propolis, softens, protects and comforts all types of skin.

WELL-BEING AND SENSORIALITY

A fine balance between art de vivre and cosmetics, naturalness and sensorial qualities, fragrance and benefits, these eaux de toilette and naturally sourced care products magnifies essential oils from Provence.

Sublimated by the master perfumers from Grasse, they are the core components of each of the fresh, natural and sensory formulas for our 5 vibrant fragrances.

ESSENTIAL OILS

These scented oils are produced from a botanically-specified plant raw material through steam distillation or dry distillation or cold expression.

MAIN ACTIVE INGREDIENT: SHEA BUTTER

Shea butter is enriched with stearic acid and oleic acid. These fatty acids are renowned for their nourishing and protective properties. They help create and boost the hydrolipidic film that reduces skin dehydration. It brings a touch of creaminess to our cosmetics so that applying them is ever-so easy.

The small delicate blossoms of Jasmin Grandiflorum were already used in the 16th century by the first master glove-makers perfumers of Grasse. Very quickly, this veritable plant gem became an essential element of perfumers' palette and found itself in the heart of Grasse horticulture. On the skin, the harmony of a bouquet of sensual white flowers offers sparkling and radiating fresh notes.

ROSE GERANIUM

ABSOLUTE PERFUMES

Rose Floral

NOTES DE TÊTE
Mandarin, Geranium

NOTES DE CŒUR
Peony, Violet

NOTES DE FOND
Patchouli, Musk

Used in perfumery, for its unique aromatic properties, the Pelargonium Graveolens is particularly delicate, both sweet and strong, very similar to that of Rose, yet distinctive thanks to its light, green and citrus notes. This floral fragrance is an invitation to tenderness, it leaves an incredibly fresh silage on the skin, like an ode to the opalescence of flower petals.

COLLECTOR GLASS BOTTLE & ECO-FRIENDLY REFILLS

SHOP SMARTER ON A DAILY BASIS TO PROMOTE A GREENER TOMORROW

Preserving natural resources is a key commitment for us. As members of 1% for the Planet association, we donate 1% of the turnover from our Green collection to two partner environmental protection organizations.

The Green collection combines the iconic refillable glass bottle and its eco-friendly refills. The liquid Marseille soap eco-friendly refills, which are money-savers and ecological (65% less plastic and 36% less CO² emissions compared with the original bottle), give a new lease of life to bottles and reduce domestic waste.

Our liquid soaps, made using plant oils, are cauldron-cooked in keeping with the traditions of Marseille's master soapmakers. Glycerin, which is naturally present in soap, ensures soaps are superfatted and mild and cleanse the body and hands gently whilst respecting the skin's natural balance.

EXTRA-GENTLE VEGETABLE SOAPS

THE AUTHENTICS

In keeping with traditional deep-down perfuming, the quadruple-milled soaps are delicately wrapped in protective presentation paper to preserve all their freshness. Their natural plant base, combined with a soft, delicately perfumed foam, will leave your skin as smooth as velvet. Extremely gentle, the fatty acids offer skin protection while preserving all the cleansing power of soap.
