Embark with us on this exciting adventure and join the community of SNIPPERS enthusiasts where we celebrate together the craft of flavour design and creation!

SNIPPERS ORIGINALS

Welcome to the Snippers Original Collection and experience the captivating art of barrel aging.

But how does it work?

Follow the below steps and unleash your inner alchemist to create your own liquid magic.

STEP 1. Add liquor

Pour a liquor containing at least 30% alcohol into the bottle. Label it with the bottle date and the type of liquor used and experience the maturation process, resembling the aging of Whisky and Rum in wooden barrels.

Store the filled bottle in a cool, dark place. Let the wood work its magic, releasing flavours and colours over time. take the opportunity to taste the evolving liquor during the aging process.

STEP 2. Let the bottle age

While eight weeks is the recommended time, feel free to experiment with longer aging for even more fascinating results.

STEP 3. Filter & enjoy

After eight weeks, it is now time to savour your homemade drink! Filter the liquor and pour it carefully, ensuring no wood bits make their way into your glass.

The chips and cubes can be reused, so feel free to experiment with different liquors to discover your favorite flavour combinations.

Proost! (That's Dutch for cheers!) Enjoy this delightful experience responsibly.

SNIPPERS ORIGINALS 350ml

Product size: 73x73x191 mm

Volume: 350ml

MOQ: 6
