

LORDS

FRAGRANCE HOUSE

## The story of LORDS...

After a decade of working in the cosmetic, and fragrance industry, helping big brands innovate, and brands far and wide create scents, Sasha Lord was bored of the same old fragrances & packaging being regurgitated.

As a keen traveler with a head full of memories, Sasha decided to craft scents different from the norm, by creating blends inspired by wonderful places, whether the natural world in that place, or the memory connected with it. With scents being such an emotional instigator, the brand was designed to transport people to somewhere and offer escapism in every day life.

To be true to her design routes & love of design and fashion, a colour filled brand felt like a necessity, with the aim to offer eco conscious and sustainable British made products and showcase design led packaging, doesn't have to harm the planet.

We currently offer products in the home scent category with plans to expand into perfume & increase our product range in 2024.

Candles (various sizes)

Reed diffusers

Room sprays

Soap

Travel scent sachets

Oils

Colourful scented tapered candles

Linen sprays

At LORDS we believe you can have beautiful packaging that's still sustainable. (it doesn't have to be brown in order to be able to recycle it)

We use FSC certified papers, glass and offer refill options for our products.

We design the scents in house, in Oxfordshire in the UK.

Our current offering of scents are:

- Yellowstone
- Monteverde
- San Ignacio
- Positano
- Trebarwith Strand
- Kaikoura
- Oxfordshire
- Big Sur

Seasonal

- Yala (Autumn/Winter)
- Abernethy Forest (Christmas)
- Pengelli Forest (Spring)

All our scents are a natural blend, that have all safety assessments and paperwork, including IFRA certificates.
