THE MILESTONE

DISTANCE TO FRIENDS & RELATIVES

DISTANCE TO SPORTS VENUES

DISTANCES TO ANYWHERE!

A WORLD FIRST!

The wooden milestone is our own creation and can be engraved with your own ideas and messages.

The perfect gift!

Unique & made for you...

THE PERSONAL TOUCH

Everything we make is as unique as the grain in the wood we use and we can make each one extra special with a name, message or brand of your choice.

INLAYS

Not everyone can offer inlays as they require special equipment and a skilled operator to achieve the perfect look.

Rather than engrave, we replace the carved out pieces with another wood for an attractive look that's flush to the surface and easier to clean.

ENGRAVING

A traditional engraved look can be easily achieved on any of our products.

Inlays are an attractive way to personalise items...

CHEF STATION

A Viking Workshop innovation, the Chef Station is the perfect work surface for professionals and home cooks alike. Featuring a solid wood construction with insets for ingredients and a tablet/book holder.

The Chef Station can be inlayed with your own logo or name.
