MEET THE DESIGNER

Hi! I'm Michelle, and I'm a print designer from West Yorkshire, England. I live in the little town of Brighouse with my equally creative husband, our two lovely children (who's nicknames are Bean and Bembie) and our crazy rescue dog and cat we brought to the UK from Qatar. My illustrations and designs are inspired by my love of bright colour, animals, nature, striking products and gorgeous packaging. I love interior design and enjoy creating a beautiful yet practical family home.

As the proud owner of a first class honours degree in printed textiles and surface pattern design, this new venture was founded in 2020 during the COVID-19 lockdowns. It represents the culmination of months of hard work, combined with years of frustration and a strong desire to (finally!) use my degree and years of experience to

create something truly fabulous. My design collections blend intricate hand drawn illustrations with a passion for clean, precise digital graphics to create bright, colourful, uplifting designs, applied to beautiful yet useful household products.

After returning home from 7 years living in the Middle East and previously working for several multi-national companies which involved international travel, I realised how passionate I felt about producing items that are of the highest quality, use the finest materials; and most importantly are lovingly and sustainably made in ONLY British factories. I have always been a firm believer that you really do "get what you pay for". With this in mind, all Bean and Bembie products are intended to be treasured and last a lifetime.

BRITISH MANUFACTURE AND THE ENVIRONMENT

WE PROUDLY SUPPORT BRITISH MANUFACTURING

We are very proud to say we use UK manufacturers for all our products. We wholeheartedly support UK manufacturing and feel that the finish and quality speaks for itself. We ensure that each and every piece is made ethically, in premium materials, always aiming to minimise our impact on the environment.

"Buy less. Choose well. Make it last" - Vivienne Westwood

WHY BUY BRITISH?

The act of buying British goods is great news for the UK economy. When you buy British, you are investing in skilled craftsmanship that has been handed down through the generations, whilst helping to secure the future for British manufacturers.

When you buy something made in Britain, you are typically buying a skilfully manufactured product that has well and truly been built to last. Although British goods can be more expensive than foreign imports, we feel that British made products have an extra level of quality that you would often struggle to find in products made overseas.

All our manufacturers strive to use materials sourced as close to the UK as they can, aiming to reduce their carbon footprint as much as possible.

"Thank you for shopping small and buying British!"

WHAT'S A CARBON FOOTPRINT?

A carbon footprint is defined as *"The amount of carbon dioxide released into the atmosphere as a result of the activities of a particular individual, organisation, or community"*.

UK manufacturing laws are in line with saving the environment, and goods manufactured on home soil often have a significantly lower carbon footprint than those mass produced in countries abroad such as China and India. Although we might not see much of a difference now, our grandchildren will certainly be glad we all invested in British made goods in the years to come. After all, UK made goods do not need to be transported half way across the world!

BEAN AND BEMBLE

HOW TO ORDER

As we expand our brand, we recognise the value of our retailers and thank you for your interest in Bean and Bemble. We aim to develop strong, lasting relationships with our retailers and are dedicated to offering the highest quality products and service. To ensure a good brand match before we start working together, we like to personally acquaint ourselves with each stockist. When you reach out, please provide some essential information: an overview of your business, shop / store location(s), and other brands you collaborate with.

We want to make it as simple as possible for you to place your wholesale orders, so we offer a variety of ways to proceed.

ORDER PROCESSING TIMES

If you choose from our in-stock items, they'll be sent out within 2 weeks (usually only a couple of days). For out-of-stock items, it usually takes 6 to 12 weeks. When you place your order, we'll give you an approximate delivery time. We'll work closely with you to make sure the stock gets to you when you need it.

ORDERING IN PERSON

If you come across our products at a trade show and want to buy them, we'll give you an order form. You'll get a pro-forma invoice within 14 days after the trade show ends.

EFFORTLESS ONLINE ORDERING

Exciting news: Bean and Bemble are now partnering with Faire, the online wholesale marketplace. Try our products risk-free with free returns on your first order. If you're eligible, you can also use 60-day payment terms to buy now, and pay 60 days later. Plus, we won't be charged commission on any of your orders if you use our Faire Direct link below:
