About the Artist, About the Brand

I am a Kenya-borne artist that loves to travel, draw cool people and illustrate awesome scenes. I studied at Central Martins (BA, textile degree) and at Chelsea College of Art (MA, textiles). Though I formally studied textile design in art school, being a city girl, I always found myself creating drawing and illustrations that depicted life in the city. Though my designs, I was able to bring to life London's hip city vibe and lovely atmosphere.

The results of my artistic adventures was the creation of Njeri Illustrated, a design-led brand that creates greeting card and stationary products featuring local city scenes for local people. Not just products showing typical city illustrations founds in most stores, but rather local city scenes that show the beauty and the depth of city life!

At Njeri Illustrated, you can find quality products featuring city-inspired artwork. The designs featured in this catalogue are available as greeting cards, art prints, and postcards. Our products can be found at local independent gift shops throughout the UK and also online! Have a browse of my collection and feel free to let me know what you think of our one-of-a-kind products.

Sincerely,

Michelle Njeri Small
Owner and Designer
