FRAGRANCE HOUSE

Wholesale 2023

Welcome to the world of LORDS Fragrance House. Experience scents that are inspired by & named after wonderful places across the planet.

From cool wet rainforests, to dry warm beaches, the experiences & memories made when travelling and exploring have inspired this ever growing range of unique scents. Using natural oils, sustainable natural waxes, and eco friendly packaging we wont be harming the planet by enjoying these products either.

Colourfully made in Oxfordshire by industry experts with a mission to add joy to a saturated market of boring branding & the same interior scents.

With an ever growing range of scents, there is something for everyone, with unique blends, unlike the norm, created by Sasha Lord, based on her memories made in each of the wonderful places.

Each product is hand made in the UK. The packaging is made using FSC certified paper, is recyclable and refill options are available

- Big Sur

Seasonal additions currently include-

- Pengelli Forest (Spring) Limited
- Yala (Autumn/Winter)
- Abernethy Forest (Winter/Christmas)

Explore the scents on the following pages.... (you can also visit the website for more info)

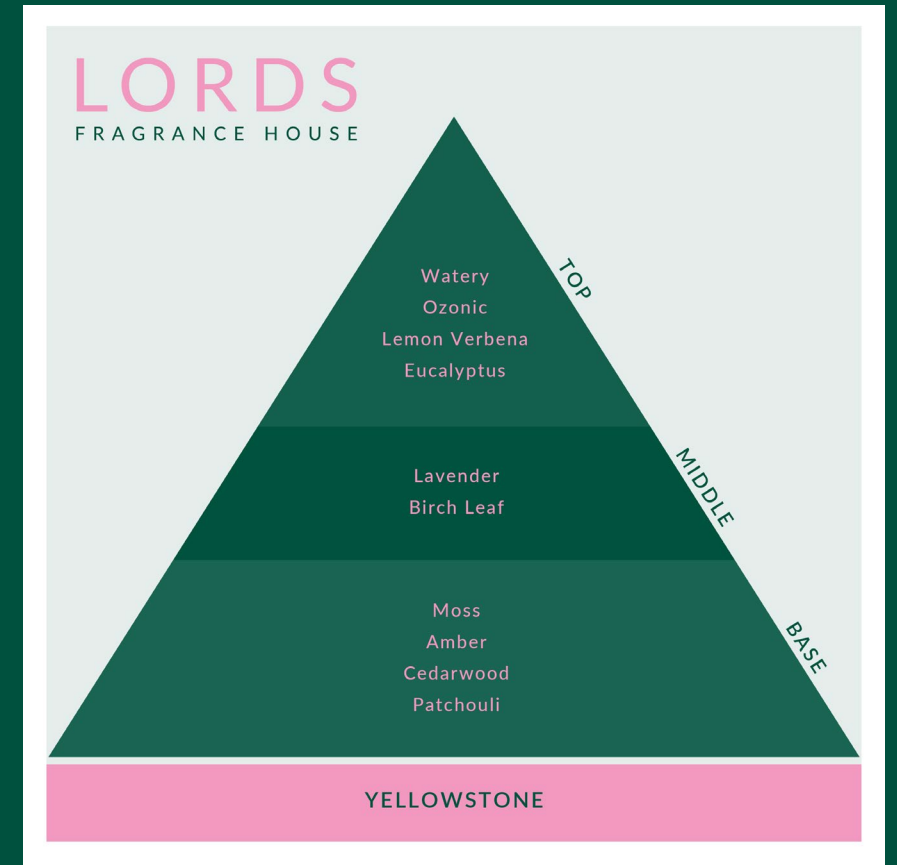

## Yellowstone

The inspiration for this scent comes from the wonder that is Yellowstone National Park. This amazing place is hard to put into words. Rivers, geysers, volcanic rumblings, an abundance of wildlife, and heat & cold all in one place. A sensory overload that leaves you feeling a part of a much bigger world than the one you were in before you came here.

### Fragrance description

An earthy scent, the eucalyptus and sagebrush give you that hit of warmth you experience when in the park, followed by the cool earthy base of earth orris and oakmoss to put you amongst the parks trees and rivers.

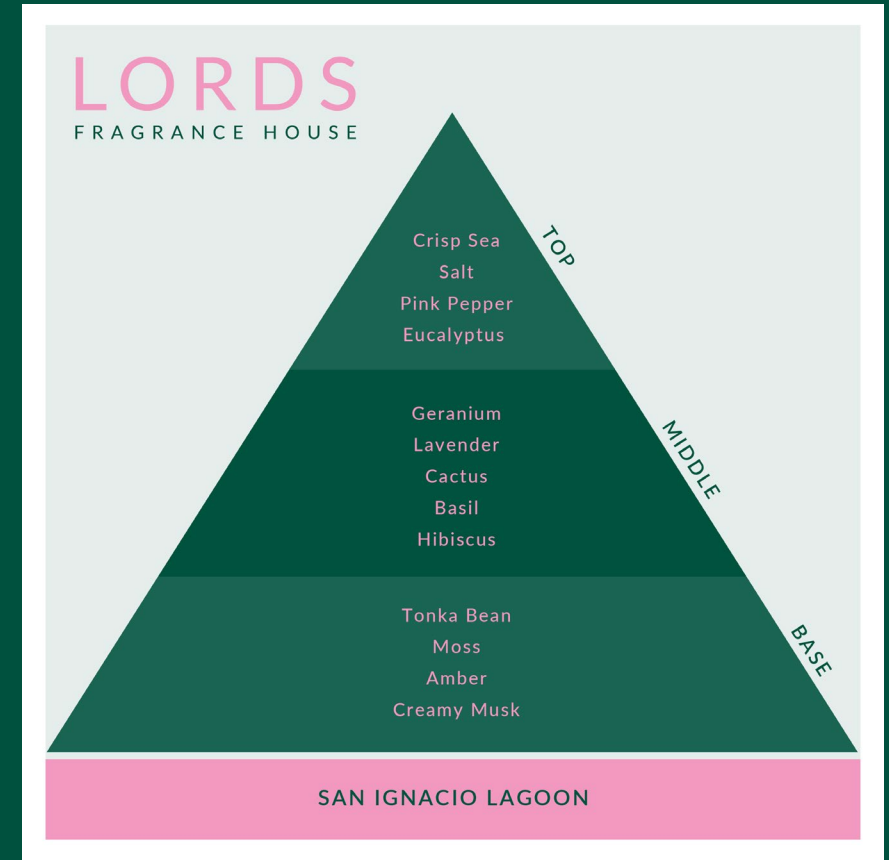

## San Ignacio Lagoon

The inspiration for this scent came from the warm Baja sunshine. Imagine pink filled skies, excited happy minds and souls surrounded by an incredible landscape. Calm seas, bordered by cactuses, and amazing fauna. San Ignacio Lagoon offers refuge for female Gray Whales. Every year they come to the calm waters to have their calves. There are a few lucky human visitors these amazing creatures choose to interact with. The scent here tries to encompass the warm sense you are left with after an amazing day out on the lagoon.

### Fragrance Description

Notes of sea salt, pink peppercorn, and cactus flower fill this scent with a crisp freshness over a heart of geranium, lavender, basil, algae, eucalyptus and hibiscus notes. Tonka, moss, amber and musk add a creamy depth to the base of this fragrance.

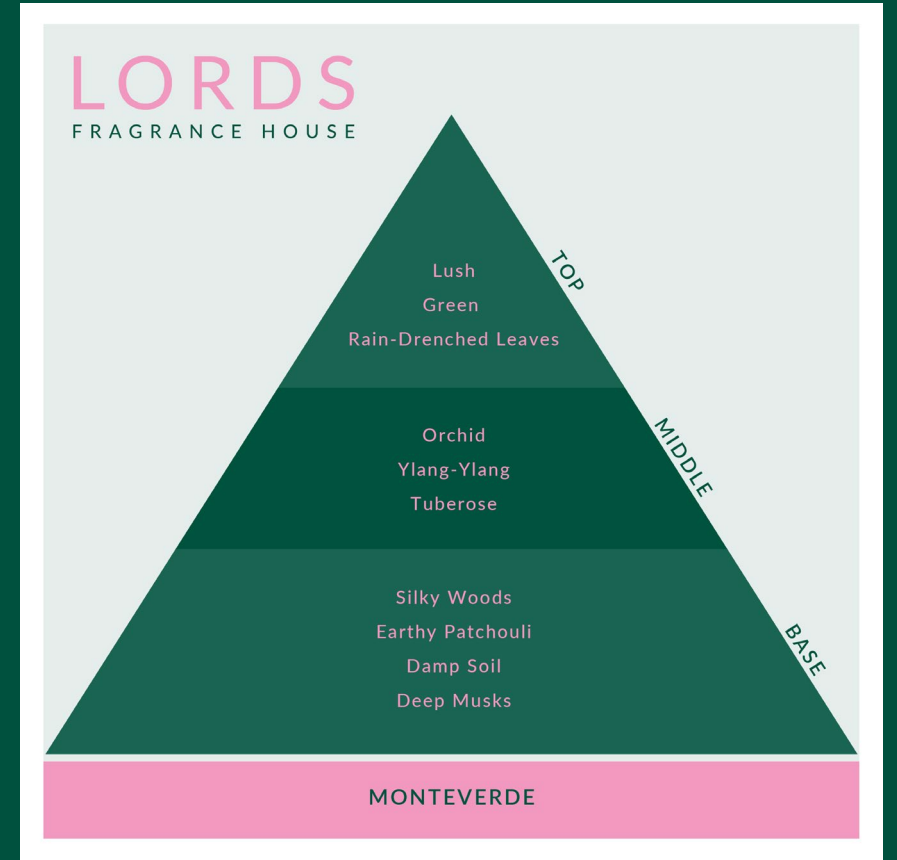

## Monteverde

The inspiration for this scent came from the incredible Monteverde cloud forest in Costa Rica. This place is where you let go of fear. Zip lining, hiking, climbing, amongst the trees. The misty jungle is often cloud covered, with warmth hitting you from the dappled sunshine through the tree tops.

### Fragrance Description

Smell the lush canopies of leafy vegetation soaked with rain bringing you earthy rich soils. Warmed by exotic floral heart notes of orchid, ylang-ylang and tuberose intertwined with silky woods & deep patchouli.

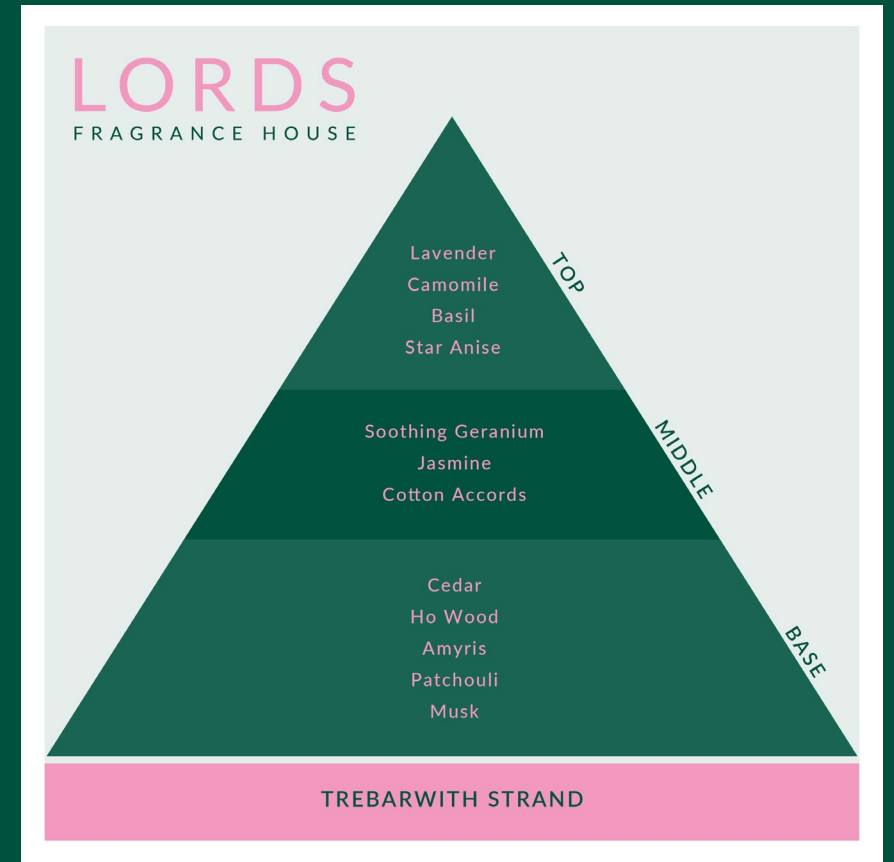

## Trebarwith Strand

The inspiration for this scent comes from my happy place, my tranquillity & the place I have visited more than any other, Trebarwith Strand, Cornwall. From childhood days playing in the surf to now, experiencing this amazing beach with wine in hand. Fun filled days body boarding in the sea, wrapping yourself in a towel & eating hot donuts on the sand. Ending the day with a warm candlelit bath, and family conversation by the fire. A truly relaxing escape.

### Fragrance description

A comforting blend dominated by English lavender, wildflowers, camomile and sweet basil. Soothing geranium and a hint of jasmine, whispers of warm cotton and a smooth woody base completes this harmonious blend

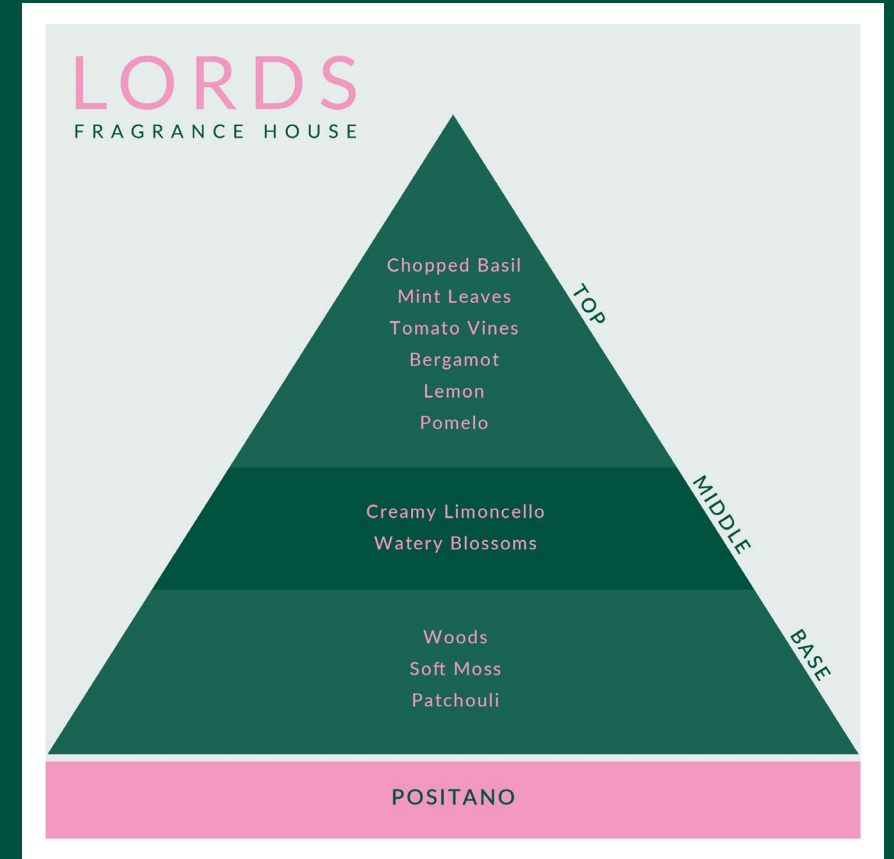

## Positano

Inspired by sunny Italian days on the Amalfi Coast. Driving the windy coastal roads with the citrus scented breeze hitting you at every bend. Sat eating delicious food, finishing every meal with limoncello & a smile.

### Fragrance description:

The fragrant aroma of freshly chopped basil, mint leaves and green trailing tomato vines ripening in the sun.

Lifted by the beautiful citrus essence of bergamot, pomelo and a dash of creamy limoncello. A gentle Mediterranean breeze carries the fragrance of watery blossoms, woods and a soft moss to finish.

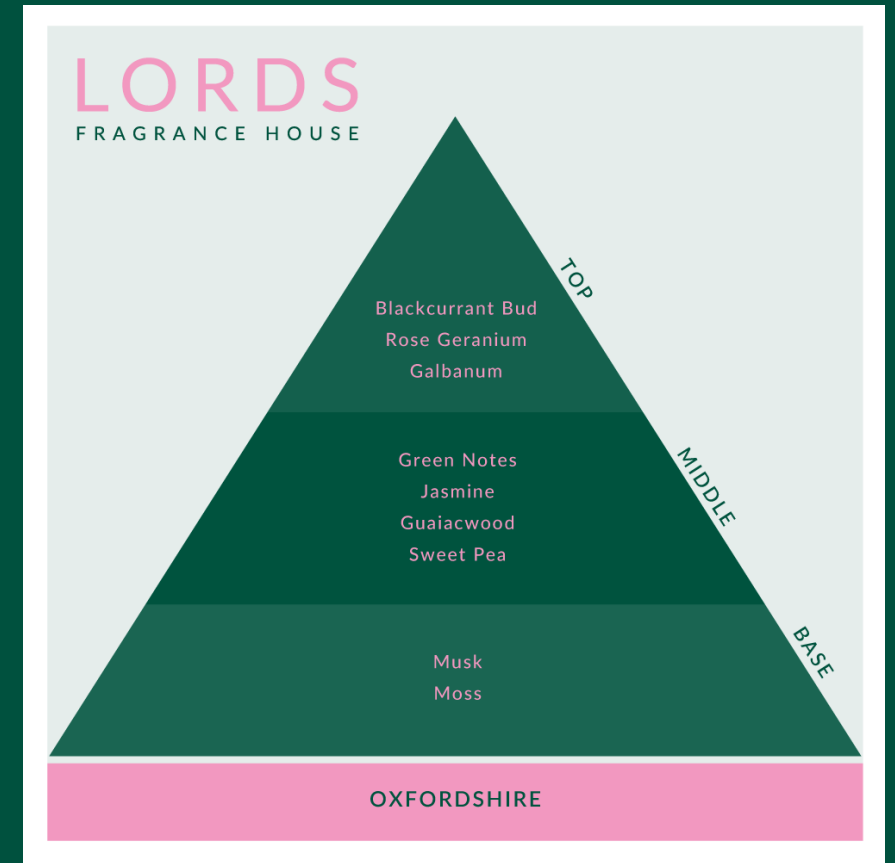

## Oxfordshire

The inspiration for this scent came from a tough time where the only solace found was in the garden. LORDS Fragrance House is a brand born from experience & travel, and recent times took that away. The garden became a refuge for many of us, a place to have hope and enjoy the simpler things. This scent was born whilst swinging in a hammock nestled in a tree, watching the bees buzz from flower to flower in an Oxfordshire garden.

### Fragrance Description:

Smell the sweet florals of an English garden. With green blackcurrant bud, rose geranium, wildflowers and sweetpea essential oils, this is a woody floral that will put you in a warm sunny mood. Base notes of guaiacwood, musk and moss, balance the sweet florals in this aroma.

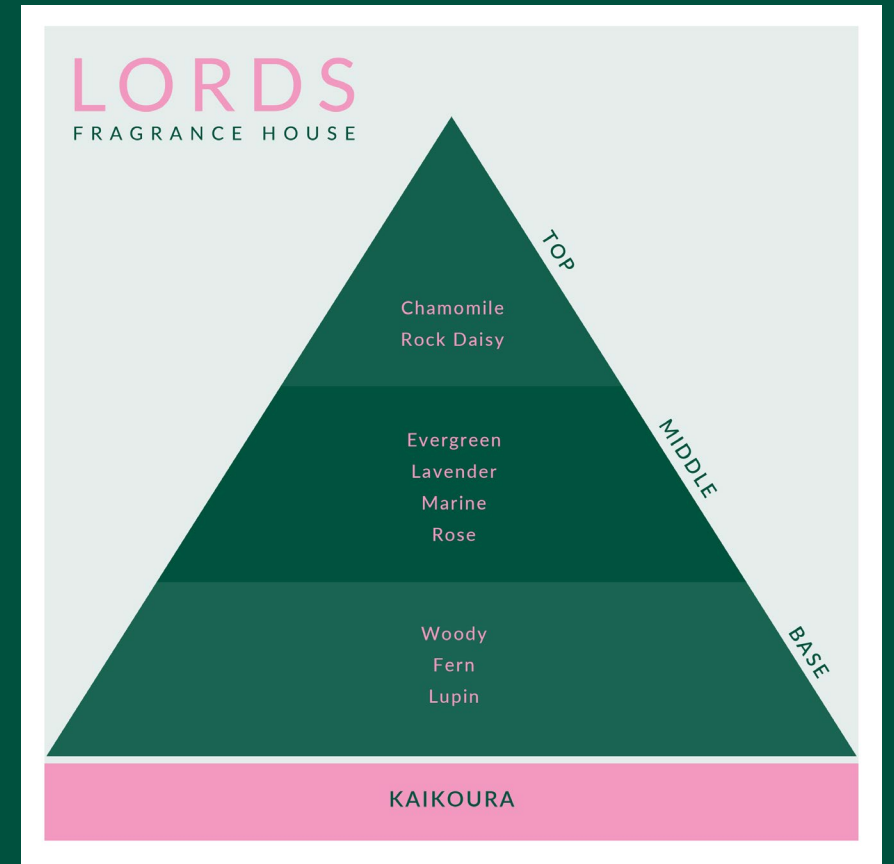

## Kaikoura

The inspiration for this blend comes from Kaikoura, New Zealand. This incredible place was love at first sight. Wandering round the lavender farms, hiking waterfall trails through fern abundant woodland walks, you could never be bored here. Its beauty only grows when you realise the amazing wildlife that call this place home, where mountains meet the sea.

This scent is inspired by a wonderful walk up to a waterfall, where a stream runs alongside the pathway. At certain times of year the stream that leads to the sea, is where adult seals leave their pups whilst they hunt, so you are caught off guard when admiring the luscious green ferns when all of sudden a little head pops up to greet you! The stream makes for a very relaxing place to sit, breathe, and take in the wonder that is our world.

### Fragrance Description

Smell the calming blend of rock daisies , lavender, lupins & chamomile, balanced with luscious green ferns & marine wood accords.

## Big Sur-New 2023

Our 'Big Sur' scent is a playground of fragrance oils, much like the coastline itself with its lush vegetation, mountainous terrain and pacific spray mingle, you'll be breathless with the beauty of this magical place. Combining the scents of green herbs, iconics woods, eucalyptus & pepper oils, with a blend of citrus peels from bergamot, lime, to grapefruit & orange, with an ambery musky base. Designed to put you amongst the redwoods, on a sunny Californian day, relaxed amongst the greenery and sea spray.

### Fragrance Description

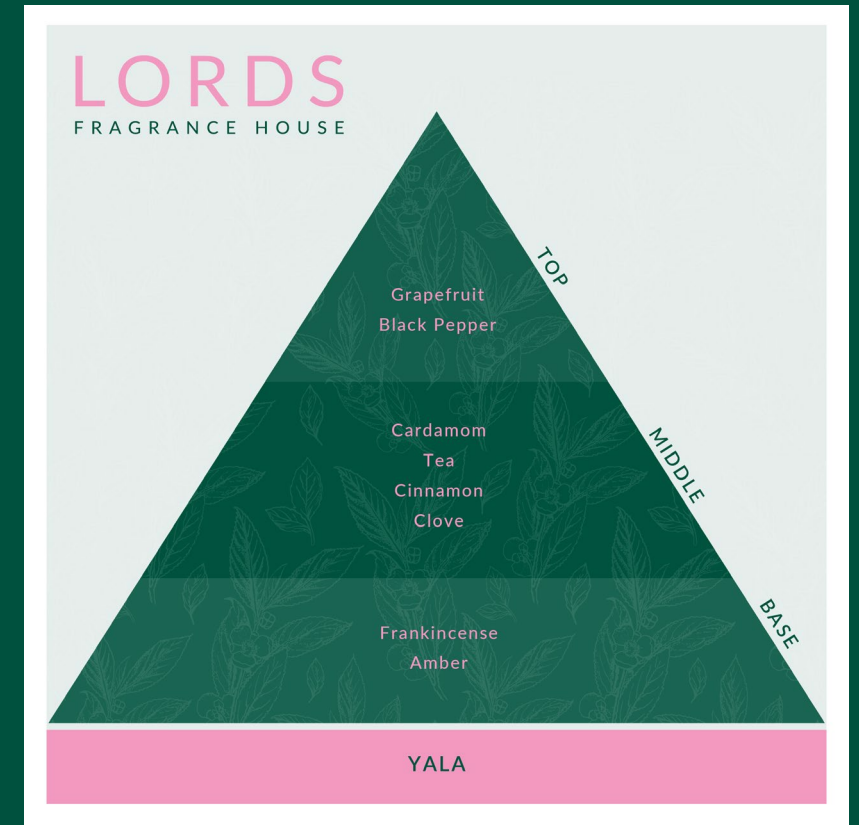

Take a trip along the Big Sur coastline, with citrus accords, cracked coriander seeds, green herbs, & Californian cedarwood.

## Yala- coming Autumn 2023

**Smell the warming blend of Ceylon black tea, with cardamom, cinnamon, frankincense & amber, brightened by grapefruit & black pepper.**

This winter warmer was actually inspired by sunny days in Sri Lanka. The spices frequently used in the amazing country are ones the western world associate with winter, so when attempting a Sri Lankan inspired blend, a festive fragrance accidentally came to fruition! Yala is an incredible national park where elephants & leopards prowl the land, and humans & wildlife have learnt to live together. Sri Lanka is very well known for producing a lot of the worlds tea, and seeing the tea plantations & the growth of the plants, from the tea leaves & black peppercorns, to cardamom pods and cinnamon, a blend had to be created to showcase the wonder of it all.

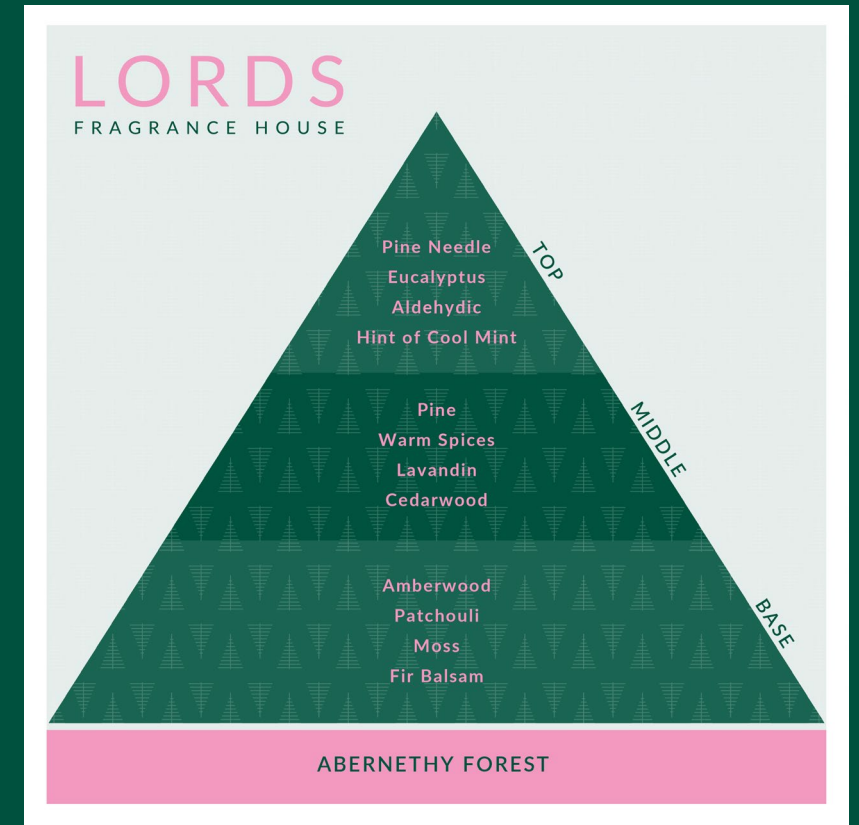

## Abernethy Forest coming Winter 2023

**Smell the wonder of the forest at Christmas time.** Inspired by Abernethy Forest which stretches from the River Nethy to the top of Ben Macdui, high on the Cairngorm plateau in Scotland.

Abernethy encompasses one of the largest remnants of Caledonian pinewood, as well as moorland, wetlands and mountains. The reserve is home to a host of specialist pinewood and upland plants and animals.

This amazing place has inspired our Christmas fragrance & will attempt to take you outdoors in the crisp air, amongst the pine trees, with a spiced warm drink in hand.

LORDS at Christmas
