Since 2017 we have had great success in our retail stores. We currently sell Swole Panda through independent retailers across the United Kingdom, Ireland and Europe.

Our success has been down to a great product, great margins for our retail partners, national press coverage as well as providing excellent point of sale materials to display our range of products.

The growth over the past 6 years has been down to the fantastic sell through rate of our products through our retailers.

"It's a real pleasure to do business with Oliver and James from Swole Panda and the Socks and Belts sell themselves.. Their display equipment is fantastic and fits easily into our shop. We are so very happy that we were recommended by another retailer."

David's of Haslemere

-

"We have been stocking the Swole Panda range since it was first introduced to the Irish market. The product offering has been improving every season, there are some really popular products in the range now.

The socks are most definitely number 1 though, we recently had a customer return to buy 18 pairs having been so happy with them after his initial purchase a few days earlier.

Customer service is also top class and Oliver & James are a delight to deal with.

Continued success to Swole Panda!"

Murphy's Menswear

-

"A couple of lines to sum it up would be that we'd always struggled to find nice men's gifts to compliment our store. We've never looked back !! We have customers who regularly top up on their sock drawer and we always have repeat sales from customers once they have gifted them.

We love them !! and so do our customers!"

Northwood Cards

-

"This is our 2nd season with these guys and I must say when you make contact and place orders we receive them in 2 days. Product is well presented and with table top to display looks great."

WiseGuys Menswear

-

"We have been working with James and Oliver for over three years now having met at the Harrogate Gift Fair.

Their enthusiasm for their products first attracted us and then sampling the high quality of the Swole Panda Range, led us to make our first order that has fast become a firm favourite with our customers.

We have invested in all their new and exciting products because we love the company ethos and their commitment to finding ethical and sustainable products.

James and Oliver are great to work alongside, always committed to ensuring orders are fulfilled and dispatched quickly and efficiently. We cant wait to see what's next and look forward to sharing more products within our own growing business."

The Eleventh Hour Gift Shop

"After seeing a gap in the market for eco-friendly accessories... their side hustle has grown into a fashion mainstay - **Forbes**
"The Slacke brothers have built a premium menswear brand with an unusual – but evidently successful USP - **Business Advice**
"10 coolest things of the week" - **GQ**

The Recycled Woven Belt started with the idea of creating the most sustainable and comfortable belt made from recycled plastic bottles.

Our belts are made from REPREEVE®, one of the most certified, earth-friendly fibres available in the world. High-quality, recycled polyester yarns are made from 100% recycled materials including post-consumer plastic bottles, pre-consumer industrial waste or a hybrid blend of both.

Swole Panda is a brand that not only makes sustainable products, but also gives back to ensure the health of our planet. Each belt is also finished with faux leather trimmings made from recycled materials.

We are partnered with Ocean Generation, **donating 5% of profits** generated from the sale of our belts with a mission to stop plastic from reaching the ocean within a generation.
