

ASHIANA

LONDON

AUTUMN-WINTER '23

English Enchantment

This collection celebrates the whimsical. Classic styles with an ethereal flair are the focus of this season. Inspired by the forests of England and the magic that surrounds their existence. Each style features traditional handmade techniques, like wiring tiny gemstones into clusters with movement and intrigue or hand shaping our unique charm moulds. Miniature discs that flutter and jingle gently with every movement are attached individually for that signature Ashiana look. The handwork in our Enchantment collection is simply distinctive and something we take great pride in. We support niche artisanal work through our small, ethical workshop in India.

The colours are earthy to represent the change of seasons from autumn to winter – from green malachites, moving into sun-setting tigers' eye. As the cold sets, we move from reflective labradorite grey to winter black onyx with a pop of berry pink for festive cheer. Our new styles sit in perfect harmony with our classic best sellers, and as always we designed our necklaces to be worn layered, so each customer can create their own individualised set. Our team have chosen stones and colours that are unique yet commercial as they compliment and elevate all skin tones.

Our values at Ashiana have not changed, we continue to employ mainly handmade practices in our jewellery and accessories. Having our own workshop allows us to monitor the complete production process, and we continuously work towards sustainability. We have improved our packaging to reduce the use of plastic where possible, and ethically sourcing all our raw materials is paramount for our brand.

Our jewellery is 18-22 carat gold plated brass, using genuine semi-precious stones, while the earring hooks & posts are all sterling silver bases, therefore hypoallergenic.

We hope you love this new collection and wish you all the best in the coming season.

Anastasia xoxo
