

AMMAZZI

TWO IN ONE BAG

Introduction

The Ammazzi two-in-one cross-body bag is easy to carry and hands-free, making it ideal for holidays, shopping, gym, work, etc.

When designing this bag we wanted to create something that is both practical and stylish: a bag that is versatile enough for all occasions. Importantly, we wanted to design something that is sustainable. We care passionately about the environment and our future so our products use recycled materials made from plastic water bottles.

Ammazzi: functional and sustainable design for the future.

Sustainability

Our two-in-one bag is made from eco-friendly materials such as recycled polyester using plastic water bottles.

By using these materials, we are reducing our impact on the environment and promoting a more sustainable future.

Affordability

In addition to being environmentally friendly, our two-in-one bag is also affordable.

We have kept our prices reasonable so that everyone can enjoy the convenience and versatility of this bag.

Whether you're a student, a busy professional, or a traveller, our two-in-one bag is perfect for anyone on the go.

Style

Our two-in-one bag is not only practical, but it's also stylish. We offer a range of colours to suit any personal style.

With its sleek design and versatile functionality, our two-in-one bag is the perfect accessory for any outfit.

Convenience

Our two-in-one bag is designed with convenience in mind. The small cross-body bag can easily be converted into a rucksack, giving you the option to carry your belongings in whatever way is most comfortable for you.

Whether you need a small bag for running errands or a larger bag for a day out, our two-in-one bag has you covered.

In Conclusion

Our sustainable, affordable, and stylish two-in-one bag is the perfect accessory for anyone on the go. Its versatility, lightweight and convenience make it a must-have for anyone looking to reduce their impact on the environment while staying stylish and organized.

The luggage and bag global industry is worth \$177bn with an annual growth rate of 5%. The backpack market is valued at \$17bn and is forecast to rise over \$30bn by 2030.
