...Neve and I are British Beekeepers producing a range of 100% natural, waterless skincare... with a little help from our Bees

COSMOS NATURAL

COSMOS ORGANIC

Our Story

"I think we should buy that house with the bees," said a nine-year-old Neve, "I've asked Grandad Jim to buy me a beehive for my birthday" and so they became Neve's Bees!

Not being able to find 'high street' skincare without emulsifiers, preservatives and other chemicals, Neve and Julie decided to make their own...

5 years later and with a wide portfolio of 'award winning' healthy Skincare products targeted at men as well as women , Neve's Bees has scaled up their processes and facilities to expand with the right trade partners in the UK and internationally.

I am a lifelong Burt's Bee's fan, and was running low on their cuticle butter. Due to the pandemic, I was unable to get more in quickly, so I decided to check out some others. I went with this one because I really enjoy supporting the beekeeping community, and this one hit the nail on the head... The actual butter is so amazing, it spreads easier than Burt's Bee's, smells really, really good and absorbs very quickly. I am exceedingly happy with my purchase and will be checking out their other items for purchase!

You have changed everything I thought about how to care for my skin. This is the first time in adulthood that I have not worm foundation to cover my (no longer!) flaky, sore skin. I am absolutely delighted – you have saved me time and money and give me a bit of glow!"

This product is absolutely brilliant, it is much better than Burts Bees which I normally get. I found this little gem and amazingly it is much, much better. It keeps my cuticles and hands really soft. I will definitely be purchasing again.

This is my favourite lipbalm in the world!! I have used so many over the years and nothing compares! The smell is subtle and delicate and a pleasure to apply! I also love the little tin it comes in
