Bespoke Decorations

We design and produce special gifts for museums, cathedrals, visitor centres and National Trust shops. Always ready to take on the challenge to create something unique.

Fully produced by

our own hands

Together with a dedicated team of fantastic helpers, we (Piet and Monty) work from our cottage-studio. Nearly every spot in the house is use in for the business; The kitchen is where we cut the clay shapes and keep to dry. It's also where we assemble the deco-

rations with beads and ribbons, do the sponging and decoration. We glaze and fire in our garage.

Over the years, our collection of decorations has grown and includes the popular ranges of animals and flowers and a lot more.

The most popular by far is our Christmas range. We also have a large collection of Cathedrals, Abbeys, Museums, etc. in our bespoke hanging decoration range.
