WHOLESALE BROCHURE
2024

ISHBEL
WATSON

Ishbel Watson Studio is a proud independent business founded by me: a jeweller, designer, maker and colour loving human called Ishbel.

Inspired by geometric forms, modernist architecture and mid-century design, I create bold colourful statement jewellery and homewares.

My mission is simple: to fill the world with colour, one joyful design at a time.

Each piece is made with love, heart and soul in my Glasgow studio.

COSMIC

Dreamy jewellery with futuristic disco vibes designed to make an effortless statement.

Modernist geometric shapes and soft ombre colours make them an elegant colour injection to brighten up any outfit.

Made from light-weight stainless steel, the cosmic collection is delicate and easy to wear all day and long into the night.

ISHBEL WATSON STUDIO

ICONS

Inspired by a deep love of leopard print and nights on the dance-floor, the ICONS collection has been designed to spark joy.

Made using lasers and featuring bold graphic patterns, each piece has an air of nostalgia and a nod to some of my musical icons.

Digitally printed on sustainably sourced maple wood or stainless steel, the jewellery is lightweight, effortless to wear and perfect for making shapes on the dance-floor.
