THE INTERIORS YARD

ABOUT

The Interiors Yard was founded by Abbi in 2020, after recognising a niche in the interiors market. “I’ve always had a deep connection with timeless interior pieces that stay in your home for years to come, particularly pieces that can be restyled with the changing of seasons”.

In our rustic-luxe style, our considered products and collections are not trend driven. They’re crafted and designed to be timeless rather than driven by passing fads. Our commitment lies in creating pieces that stand the test of time, becoming an integral part of homes for years to come. We have a passion for weathered pieces, each carrying its unique narrative, infusing intrigue and character, ultimately shaping homes to reflect the individuality of their owners.

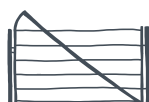

Imagine a home filled with timeless purpose, character and pure joy...
and think of The Interiors Yard

Our debut collection showcases our signature pieces, placing a strong emphasis on sustainable materials, repurposing, and product versatility.

Consider our Rustic Reclaimed Plank Bath Board, one of the initial designs from The Interiors Yard. It seamlessly transitions from a bath board to a serving board and even shines as a stunning table centerpiece. Versatility lies at the core of our brand ethos, urging individuals to reimagine each piece within their homes, ensuring a continuous adoration for our creations.
