THE WONDERFUL FUN TOY

The toy. The appreciated gift that makes the birthday as fantastic as you can hope for.

Both children and adults can look forward to a gift that is solid, well designed and that can be played with for generations. A toy that can inspire to dreams of the future, and interior design that creates a cozy space where the child can create their own magical world.

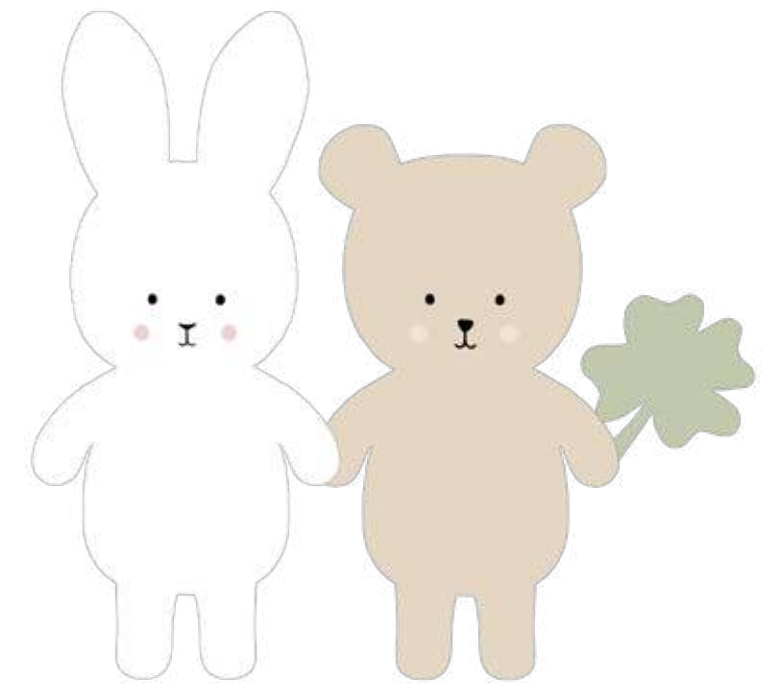

The doctor's bag, the birthday train, the rocking horse, the parking garage and the ice cream shop are some of our contributions to fantasy excursions and developing ways of playing. We are driven by the love of giving the very best to the most valuable we have, our children. Children's joy and playfulness are always the starting point when we design and shape our products.

We create genuine products that encourage family traditions, which are played with intensively for a few years. They can be inherited and find new playmates as they are made to last for real.

We are humbly aware that we are part of an important period, as it is very much about giving a good start, spark curiosity, playfulness and having a shared experience with your child. Or a much-needed break while the child plays.

We believe that our products convey even more care and security, to both children and parents, by always being safe, well-made and nicely designed. In addition, we develop our toys to encourage learning, with support from the latest findings on children's development.

Through constant development and a growing range of wonderful toys and interior details, we show great care for small people. ❤️

Check out our news, look for this symbol in the catalogue.

BABY WALKER

BABY WALKER

This baby walker is accompanied by a cute buddy named Teddy. Together they make the sweetest gift and are the perfect companions when you take your first steps! The walker is designed like a small car and Teddy sits ready to follow you on every adventure. Both rear wheels have adjustable breaks and when you remove the lid on the walker you will find a smart built-in storage.

PULL TEDDY

Pull animal in solid wood, shaped like a teddy. It rolls easily over both carpet and floor thanks to its wheels. The abacus has five colourful beads that can be moved around its body. When the pull animal rolls across the floor, it encourages the child to start crawling, walking, and exploring its surroundings. The perfect gift for the first birthday.

QUALITY

At our company, quality is a priority when designing toys and products for younger ones. We are committed to getting rid of the throw-away culture that currently exists in today's toy industry. Instead, we design items that will become cherished keepsakes for children to keep for many years. This is why we make use of natural and sustainable materials with a timeless design so our products can be passed down from one generation to the next, creating a better future.

SAFETY

Since safety concerns are ingrained throughout our entire business, we take great responsibility in creating products that are secure for children. Our products are rigorously tested to meet current safety standards in Sweden and Europe and are CE marked as evidence of our high standards. Everything about the products is tested, including the choice of materials, construction, and color as well as the presence of any chemicals. You can be confident that any products you purchase from us have been manufactured, tested, and approved in accordance with all applicable laws and strict regulations. Our products comply with EN71-1, 2, and 3. Additionally, we promise that none of our products contain phthalates, BPA, or PVC.

ETHICAL STANDARDS

Since many of our suppliers have been with us since the start of Jabadabado, we have a close bond and excellent working relationships with them. Most of our suppliers belong to SEDEX, a global membership organization that promotes improvements in ethical and responsible business conduct. Our factories undergo routine audits in accordance with reputable programs like BSCI and SEDEX.

DESIGN

We are passionate about design. Our style is timeless and playful, with an emphasis on functionality. We have everything you need to create a stylish and cosy room for your child, with soft natural authentic colours and innovative and exciting patterns and shapes. Aesthetics, durability, feel, and function go hand in hand for us. We see no contradiction between feel good, do good and look good. Rather the contrary. We are also known for our beautiful and stylish packaging, which makes our products wonderful gifts that are equally enjoyable to give and receive.

JABADABADO + SUSTAINABILITY

Jabadabado has become synonymous with colorful and beautiful wooden toys, baby items, and children's room décor. When we develop our items, we use sustainable and natural materials like wood and cotton, with an emphasis on color, design, and function. Each product is produced with tremendous originality and enthusiasm, right down to the least detail, and the great quality and timeless design means that the products can be enjoyed for a very long time and used for generations.

All of our goods are thoroughly assessed before being approved; from material selection, design and colour to any potential chemical presence. With us, you can shop confidently knowing that all of our products meet the highest safety standards. Moreover, we ensure minimal plastic content in our packaging materials to reduce environmental footprint.

CHILDREN'S JOY IS OUR DRIVE

We have been passionate about providing the best for children since we began in 1993; this passion is reflected in the items we create. From doctor's bags to birthday trains, rocking horses to parking garages, ice cream shops and more, our products are designed to spark imaginative play. We make each one from high-quality materials so they can become family heirlooms and be passed on for generations of fun and entertainment. Our ultimate goal is for kids to experience joy and we strive for that with every item we create.

WHO WE ARE

Jabadabado is a Swedish design firm that creates and sells wooden toys, baby articles, and interior design for children's room. With our unique patterns and contemporary colours, we combine Scandinavian design with fun and playful elements. Our company was founded in 1993 in the Swedish city of Landskrona, where we still have our headquarters and warehouse. Since then, our business has grown, and today Jabadabado is sold worldwide through a growing network of distributors. At Jabadabado, we embrace our youthful spirit and remain driven by a deep devotion to children. Our philosophy is based on creating products that are both high quality and fun in order to enhance their development and bring joy into their unique world. All items are conceived and crafted with care, using sustainable materials such as wood and cotton. These items will have lasting power - not just for the kids of today but for generations to come.

Jabadabado has been a part of the Bare Collective corporate group in children's and hygiene products since 2021, with the vision of making sustainable consumption the norm.
