Fine Art and Greeting Cards Catalogue 2024

About

For lifestyle brand Shaku it all begins with nature. Founder and designer, Shakera Tayub's love of the natural world urge her to set pen, pencil - and paint - to paper. A skilled artist, her sketch books are filled with unique and beautifully detailed artworks of plants and flowers captured in incredible detail. For a long time, Shakera nursed a desire to bring her art to the world and it is together with her eldest daughter, Sonera that the dream has become a reality.

Gloriously floral, these artworks grace Shaku's first range of fine art and greeting cards. The collection had its debut last summer at the RHS Chelsea Flower Show, and the response was brilliant! From delight at the lovely tulips in their bold colours, to joy at the whimsical take on a forest, the cards sold very well.

This January, Shaku presents its first complete collection of paper products. Made with sustainability and long lasting quality in mind, these products are designed to be loved and displayed for a long time to come. We look forward to showing you our art!
