INSPIRING DESIGN WITH NATURE IN MIND

## OUR STORY & MISSION

Here at Kabloom, we make fun and innovative planet-friendly products. Designed for interaction, inspired by our relationship with nature in the urban environment.

The idea for Seedboms came from a desire to reconnect people with nature. We want to help people join forces for our planet, to create nature and colour for the benefit of everyone.

It was important to us to create an easy to use product that wasn't going to end up in landfill at the end of its useful life. Seedboms are reborn into something new. All materials are **Recyclable, Biodegradable** and **Compostable**.

Yes the grenade shape is a little divisive, but there is a method to our madness! We are reclaiming this 'negative' shape and turning it into something positive. The grenade completely biodegrades into the soil (over a matter of weeks) and continues on with a second life; a rebirth through wildflowers.

**Kabloom is a 1% for the Planet member and 10% of all Seedbom sales profits are donated to rewilding nature conservation projects in the UK**
