

CHAR ISTA.

LOOKBOOK 2023 / 2024

About us

Handmade in a small batch in our studio in Bali, Indonesia, every piece of jewelry is a unique combination of minimalist style with a twist of rough edges.

Our collection is inspired by nature and experiences in life. It is captured in the most vulnerable way and then crafted ethically in sterling silver with sustainably sourced various gemstones.

Meidy, our designer and maker, founded the brand in 2016 in her last year of university. She resides in Bali working full time with her team while being a mom of 6 rescued dogs.
