The most magical season deserves
the most magical paper goods...

Hutch Cassidy puts the customer at the heart of every design, always staying true to our mission of sprinkling a little bit of magic into everyone's lives, and this is especially true during the festive season.

Each enchanting design in our Christmas range starts its life as a painting in our vibrant studio in Helmsley, North Yorkshire. Here Nicola draws inspiration from the rich tapestry of our beautiful planet, her own imagined magnificent creatures and charming Christmas characters, bringing them together in a truly whimsical way.

Striking use of rich colours and fanciful designs guarantee the Hutch Cassidy range stands out from the crowd, with each simple piece of paper being transformed into a magical scene of winter wonder.

Our ongoing commitment to creativity, quality, and vibrancy has not only won Hutch Cassidy a cherished spot in the hearts of many but has also opened doors to being stocked in many wonderful galleries, shops, museums, florists and major retailers around the globe.
