東洋スチール株式会社

TOYO STEEL CO.,LTD.

**DREAMS WILL
NOT RUST**

Established in 1969, Toyo Steel was the first company in the world that successfully developed a deep drawing technology to make a seamless steel toolbox from a single sheet of steel. Simple, durable, & rugged yet beautiful designed toolbox with “Made in Japan” quality.

Beyond just an “organizer box”. Toyo Steel’s toolbox has been stored and enfolded in each one of our user’s life stories.

DREAMS WILL NOT RUST

Until now, and from now on, that is the wish of Toyo Steel.

夢は、錆びない。

1969年、東洋スチールは世界で初めて一枚の鋼板を継ぎ目のない「深絞り技術」を用いてスチール製のツールボックスを作りました。

シンプルで頑丈、無骨ながらも美しいその工具箱はメイド イン ジャパンの名にふさわしいクオリティで、半世紀以上たった今も愛され続けています。

単に“モノを入れる収納箱”という枠を超え
ひとりひとりの想いに寄り添い、
それぞれの歴史を育てたい。
夢は、錆びない。
これまでも、これからも、
それが東洋スチールの願いです。

HOME

A person wearing a light grey sweater is seated at a wooden desk, focused on painting a white sheet of paper. The desk is cluttered with various art supplies: a black tray on the left holds several colored pencils; an open book in the center features botanical illustrations and text; a white mug of coffee sits to the right of the person; a black tray on the right contains brushes, tubes of paint, and other tools; and a watercolor palette with various colors is in the foreground. The scene is lit with soft, natural light, creating a calm and creative atmosphere.
