Trixie story*

about imagination & creativity

•

spark your imagination

Inspired by the infinite imagination of a child, our broad range of products creates a playground from which your **imagination can take flight**.

At Trixie, we are fascinated by a **child's endless imagination**. From newborn to teen, children own this immense fantasy, that they use to discover the world around them. We want to **cherish creativity, infinite play** and this fantastic characteristic and join children in their world of imagination and creativity, as it is such an **enriching experience**.

about respect for the planet

•

sustainability is key

At Trixie sustainability is put central in the broad sense of the word and this is reflected in various areas. A profound respect for the planet is important, because the future planet is the **playground for the next generation children.**

When developing a new product it is critically analysed whether the product will actually fulfill the set requirements and functions. Thanks to our holistic approach, Trixie guarantees **sustainable and qualitative products** that will **appeal to both children and parents.**

our labels

organic cotton

All our textile baby products are made of organic cotton. Our **high-quality fabrics** are extremely soft and will easily endure many washes **without loss of quality or colour.**

This renewable and sustainable resource is grown without the use of harmful chemicals or pesticides.

GOTS certified

Our range consists of **GOTS certified goods.** GOTS stands for the Global Organic Textile Standard. This international quality standard ensures that textiles contain at least 70% organic materials and are produced in an **environmentally, ethically, and socially responsible** manner.

The label considers the entire supply chain and production processes, from harvesting the cotton to the final product. We hold this label in high regard as its holistic approach perfectly aligns with our **sustainable values.**

OEKO-TEX® certified

STANDARD 100 by OEKO-TEX® is a globally standardized, independent testing and certification system for textile raw materials, intermediate and end products, and accessory materials used at **all stages of processing.**

This standard ensures that textiles do not contain any harmful substances and are produced with an effective quality management system in place. The fabrics are thoroughly tested to ensure they are **safe for a baby's sensitive skin.**

FSC® certified

This label is awarded to products made from wood with Forest Stewardship Council (FSC) certification.

The FSC® label guarantees zero deforestation, supports the shift from preservation to conservation, ensures fair wages and a safe work environment, and upholds community rights. It perfectly aligns with our vision of **securing our playground.**

recycled fabrics

Recycled fabrics offer significant environmental benefits by **reusing materials** such as plastic bottles and old textiles.

This helps reduce waste and lessen the demand for new raw resources, conserving energy, water, and lowering greenhouse gas emissions. This approach contributes to improving overall resource utilization, **promoting a more sustainable and circular economy.**

silicone

Our tableware range includes items made of **100% food grade silicone.** This durable material is easy to clean, hypoallergenic, and can withstand extreme temperatures, making it **ideal for kitchen use.**

Silicone's longevity and resistance ensure it maintains functionality over time, creating sustainable products that can be **passed down to siblings or friends.** Additionally, the 100% food grade silicone complies with **all European safety standards.**

meet our newest animal friends

Our cheerful animals are everyone's **best friend**. This colourful bunch puts a smile on your face in no time. Each animal has a **unique look and character**. We're happy to welcome **three new animals** to our family of animal friends. Let's introduce them to you!

Mr. Shark

Roaming the seven seas, Mr. Shark is a true adventurer. He knows his way around the oceans and is eager to explore new depths! His refined blue grayish colour perfectly reflects his loyal and brave nature. He's a true friend that would cross oceans to help anyone in need.

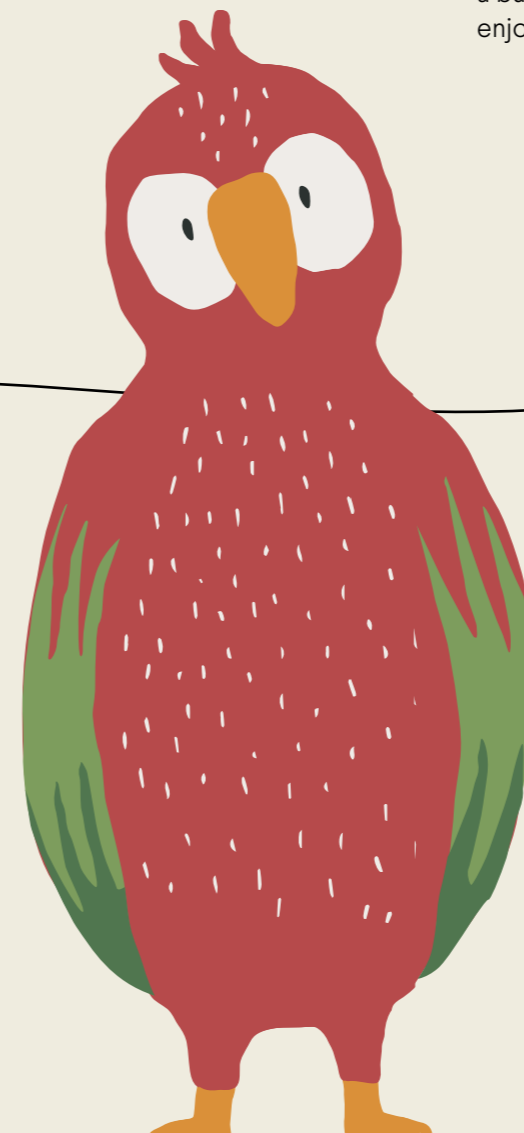

Our animals care for the planet and want to help secure our **children's playground**. Therefore, our backpacks are now made from recycled materials. The outer fabric contains up to **60% of recycled cotton**. The lining contains **85% recycled polyester**. **Without compromising on quality**, we reuse fabric that would otherwise end up as waste.

Mrs. Bumblebee

Always cheerful, always buzzing! This busy lady is always working on new plans and projects. Mrs. Bumblebee is a true entrepreneur! (Her drive, skills, and friendly nature impress everyone around her.) Luckily, she also knows how to wind down after a busy day, choosing a pretty flower to relax on and enjoy a beautiful sunset.

Mr. Parrot

Mr. Parrot is a talkative friend who's always in a good mood. This fun, feathery companion is a true optimist that enjoys flying through the Amazon spreading his happy vibes all around. His bright colours and cheerful chitchats put a smile on everyone's face.

development skills

age grade guidance

imagination

colours

These 5 key colours matches all animals.

imagination

The illustrations symbolizes childrens imagination.

guidance

A tool for parents to guide them through the range to find the products that are suitable for their needed age;

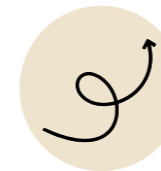

1 • colour

Every age grade has a specific colourcode;

2 • development skills

You can find which skills the child can develop in his/her development:

- for products -18m you can find them on the frontside
- for products +18m you can find them on the side or backside

features

At the backside you can find the features of each product and the nice-to-know facts.

sustainability

The eco-story is implemented on the backside, why the material is the right choice for the environment.
