

AMNIENS

ahm·nee·ens

A Stream of sensations

Exploring the knowledge of scent and its benefits for our wellbeing, AMNIENS offers two specific oils, each with their own functionality.

At its core, AMNIENS exists to help encourage you to reconnect with yourself, by reclaiming small but significant moments every day. Captivated by the duality of scent – its ability to be both functional and emotional.

Our scent profiles are designed to uplift and energise, and to bring calm and balance, depending on what you need. We have been drawn to working with experts at every stage, those who are passionate about their subject and keen to join us in doing things a little differently.

I hope that AMNIENS will allow you to take time for yourself, and that in these moments you will find space to start creating the changes you would like to see in the world. We are starting small, but we have big ideas.

Jonas Pescettini

Colpo dell'onda

Break of the wave

An energising scented oil with bergamot and lemon for an uplifting effect on body and mind.

Think bright and refreshing, designed to penetrate the skin and be absorbed with each inhale – getting directly to the systems within the body that help to boost your mood.

Citruses improve focus and cognitive performance, while notes of amber, vanilla and sandalwood help to manage stress and bring a sense of clarity. CBD only enhances all of these benefits for body and mind. It's an energising gateway to the rest of your day.

Apply to pulse points; wrists, neck, temples. Breathe in and feel energised. Re-apply throughout the day as needed. The scented oil is designed to gradually fade, allowing you to take a moment to pause, before continuing your day refreshed.

Nebbia all'alba

Mist of the dawn

A calming scented oil with vetiver and sandalwood for a relaxing effect on your body and mind.

Think warm and grounding, designed to penetrate the skin and be absorbed with each inhale – getting directly to the systems within the body that help to soften your mood.

Fresh woody notes ease tension and promote peace and clarity, while spicy undertones of juniper and pink pepper bring positivity, helping you to breathe deeply and balancing emotions. CBD only enhances all of these benefits for body and mind. It's a calming gateway to the rest of your day.

Apply to pulse points; wrists, neck, temples. Breathe in and feel relaxed. Re-apply throughout the day as needed. The scented oil is designed to gradually fade, allowing you to take a moment to pause, before continuing your day renewed.

A journey of spoken word and visuals

Sharing the AMNIENS universe through each of our scents;

from an energising coastline,
where citrus is carried
on the sea breeze
to a calm morning,
mist slowly dispersing
as the soft golden light
warms the air.
