

AVOLT

AVOLT Redefines Everyday Utility with Award-Winning Scandinavian Design – Now Available in the UK

AVOLT – A Swedish design studio renowned for its minimalist and functional power solutions, is proud to announce the launch of its signature products, **Square 1** and **Cable 1**, in the UK. These innovative products blend Scandinavian design principles with exceptional functionality, empowering homes, offices, and public spaces without compromising on aesthetics or architectural harmony.

Form Meets Functionality

Gone are the days when power extenders were an eyesore. **Square 1**, AVOLT's flagship product, reimagines this everyday necessity with a sculptural form that feels at home in the most sophisticated interiors. Designed with both personal and professional spaces in mind, Square 1 combines three UK Type G sockets and two USB-C ports capable of delivering a fast 30W charge, all wrapped in a minimalist cube silhouette.

A true design-forward innovation, Square 1 features a built-in magnetic surface and adhesive mounting plate, enabling effortless integration onto non-magnetic surfaces. Available in a curated palette of earth-inspired colors, it empowers users to complement or contrast their interior aesthetic, proving that utility can be as stylish as it is practical.

The Companion You Didn't Know You Needed

Pairing seamlessly with Square 1 - **Cable 1** is a premium charging cable designed for durability, flexibility, and subtle sophistication.

With the UK launch, AVOLT is poised to bring its ethos of "design without compromise" to a new audience, redefining what it means to live and work in spaces that inspire.

About AVOLT

AVOLT is a Swedish design studio specializing in premium power solutions that embody Scandinavian design principles. Through a unique blend of form and function, AVOLT creates products that enhance daily life while respecting architectural and interior aesthetics.

Having sold over 250,000 units yearly, AVOLT continues to expand its presence in 36+ markets worldwide. The company's versatile product range includes a variety of color options, enabling users to mix and match designs to suit their unique environments.

“We’re thrilled to introduce our products to the UK market,” said **Johan Runströmer, founder of AVOLT**. “Our ambition is always to produce beautiful objects that we actually use on a daily basis, and that stand the test of time.”
