WHOLESALE CATALOGUE

Hello, you
beautiful human!

Established in 2019, Och Vegan Cosmetics is a cooperation of two soulmates; Magdalena and Remi. We're personally committed to everything vegan, natural and low-waste, all things Och Vegan embodies.

All of our lovely products are handmade by us in our workshop in Glasgow. We use essential oils, natural colours and other responsibly sourced ingredients to create our gentle, moisturising soaps and more. Designed to help relax and soak the everyday stresses away, we hope you enjoy every bubble to the fullest!

Magdalena + Remi

COLD-PROCESS SOAP

Our handcrafted face and body soaps are the stars of the show. We use skin-nourishing olive, coconut, shea and castor oils making them super gentle and moisturising - perfect for sensitive skin! The lather is luxurious and bubbly.

Cold-process is the most traditional form of soap-making. The saponification process occurs within the first 48 hours, after which the soap is cut and cured for four weeks.

Each of our soaps scents have been carefully made using combinations of natural essential oils, designed to transport you somewhere magical.
