# Everyday Moments, made Extraordinary

This autumn, a **new chapter in handcrafted design** transforms everyday moments into extraordinary experiences. Inspired by the beauty of daily rituals, our latest collection reveals a perfect marriage of timeless artisanship and modern design.

At the heart of this new chapter lies the Ripple series, a range inspired by the subtle dance between wind and water. Every piece boasts distinctly **modern designs, enlivened by vibrant, nature-inspired colours.**

The collection also unveils beautifully **handmade cabinet knobs** and our **first-ever peg rail**. Alongside familiar favourites like DecoBird and charming animal hooks, these pieces form a cohesive range that effortlessly transforms everyday routines into unforgettable moments.

# Everyday Elevated

Elevate everyday moments with the Ripple series—**sculpted in elegant cherrywood** and inspired by the gentle caress of wind on water.

The collection, featuring **bowls, coasters, and napkin rings**, comes to life through precise techniques like **wood turning, chip carving, and hand painting with water-based paints**. These methods unveil nature's beauty in every tactile detail. A final coat of **linseed oil** enhances the wood's natural warmth and depth, completing each piece with an inviting glow.

Featuring **six nature-inspired colours**, from rich hazelnut brown to calming sky blue, these vibrant, versatile items elevate simple

routines like breakfast or casual snacking into meaningful daily rituals. The Ripple series invites you to savour every small moment, transforming ordinary activities into indulgent experiences.

# Little Details, Big Impact

Our **new collection of handcrafted cabinet knobs** celebrates nature's quiet beauty, elevating ordinary furniture details into subtle statements of style.

A **purposefully designed in-store display** shines a spotlight on these charming details, creating a captivating showcase for your retail space.

Expert **artisans hand-paint each knob with water-based paints**, revealing ten exquisite motifs. Building on eight beloved designs from our existing collection, we also unveil two enchanting new additions: **chocolate cosmos and white poppy**. Each piece instantly enhances interiors, infusing furniture with warmth and personality through a single, stylish touch.

# Timeless Form & Function

Inspired by traditional Swedish artisanship, Wildlife Garden's **first-ever peg rail fuses heritage craftsmanship with modern practicality**. This decorative hanger—featuring three sturdy pegs and a gracefully carved swallow motif—infuses hallways, kitchens, or bedrooms with a warm, understated charm. It's ideal for hanging coats, jackets, or kitchen towels.

For those who prefer a subtler aesthetic over our vibrant animal hooks, the peg rail offers a refined alternative imbued with understated charm. Completing the lineup is the playful **red squirrel hook, a lively new addition to our extensive animal-hook collection**.

# DecoBird: Artisanship & Tradition

Exquisitely hand-carved, **DecoBird Cuckoo** stands as a testament to authentic character and masterful artisanship. Across many cultures, its iconic call heralds spring, symbolising renewal and the promise of warmer days.

The **DecoBird Step-by-step display**, featuring five distinct stages of each bird's creation, offers a fascinating behind-the-scenes look into the artisanship that brings these characters to

life. This engaging **visual narrative deepens appreciation for the artisanal process**, transforming each DecoBird into a true work of art and a distinctive piece of home décor.
