Art cushions is the trade name for WELOVECUSHIONS

A SPOTLIGHT ON...

Welcome to our 'Spotlight On'...

In our last 'Spotlight On' we talked about the changes and investment that we made—a new printer, a better bespoke service, better quality of image reproduction, new staff, an expansion of technical knowledge and in the products we make. Tea towels, tote bags, aprons, lampshades and much more now complement the cushions and deckchairs we are known for.

Well, we're moving forward, and our Environmental Pledge has become our mantra...

As a small UK maker of high-quality home accessories, we at ArtCushions are very aware of the responsibility that we have, to minimise our carbon footprint and evolve our product range to use more sustainable and recycled material.

We already use eco-friendly inks, source our material from GOT certified mills, use FSC certified wood, re-use boxes wherever possible for customer orders and bio-degradable bags for those who still require them.

But, and most importantly of all, we remain committed to our "made to order" production service for every customer order. This ensures minimal waste and smaller carbon footprint, and that each order is hand-finished with the love and professionalism of our small team in Tottenham.

But we're going to do more...

■ As of now, all of our Fibre Cushion Pads will be made from 50% recycled plastic from Plastic Bank, globally recognised as one of the leading solutions to stop ocean plastic, whilst helping people living in poverty to build a better future. Plus, we're aiming that all our feather cushions pads, by the end of 2022, will be made from UK sourced material, reducing the amount of feathers heading for landfill in the UK.

■ And, by the end of 2022, we will aim to have a range of organic cotton/linen and recycled fabrics available for all our products.

We're not perfect (as yet!) but by constantly evaluating what we do and creating positive change by talking to our suppliers, we will look for new solutions, and consider the life cycle of our products going forwards.

We'd like you to join us on our voyage... So pull up a pew, and explore the new ranges from licensees both new (**Alfred Wise - The Wise Artwork Collection, Their Nibs and House of Turnowsky**) and some of your favourites (**Robert Gillmor, The British Library and The National Gallery**).

We hope you enjoy. Please do give us a call if you'd like to discuss your printing query or have a question about any of our ranges.

Take care

THEIR NIBS: WILD AT HEART

Break out the pattern with Their Nibs' collection at Art Cushions. The 'Wild at Heart' range takes the design studio's quirky prints, and transfers them to cushions, deckchairs, stools and art cloths. Blue herons, nightingales, seahorses, cherry blossom, kingfishers, dragonflies, feathers, hares and carnation cheetahs' run rampant over the range to form an eclectic mix of colour and design.

ALFRED WISE

The Alfred Wise Collection transports the delicate botanicals captured by the renowned RHS artist-in-residence Alfred Wise, into a beautiful collection fit for the ultimate garden party.

ABOUT ALFRED WISE:

Alfred Wise (1908 -1985) spent most of his working life as a botanical artist-in-residence, engaged at RHS Wisley, Surrey. A prolific painter he created over 1,000 watercolour paintings of selected plants, often of those winning prestigious medals and awards of merit at RHS flower shows. Wise was a true eccentric and loner - living in a ramshackle caravan in the grounds at RHS Wisley, surrounded by his brushes, paints and his beloved artwork —an individualist's artists paradise in an idyllic location.

Our sturdy folding stools can be used in the garden, on camping trips and for jaunts to the seaside. Tough and easily stored when not in use, they are made with a sustainable and durable hardwood (PEFC certification) and finished with teak oil.

A bold pheasant saunters amongst bright poppies, a brooding avocet looks after her nest, a hare hides in the daisies, whilst an eagle-eyed bittern watches from afar....

Welcome to the natural world as viewed from the eyes of Robert Gillmor MBE, one of the best-known wildlife artists and printmakers in the UK.

As well as new ten cushion designs we're also introducing eight new deckchair designs to the Robert Gillmor collection, so sit back, relax and enjoy Mother Nature.
