NEW ADDITIONS

# Athena

Inspired by Greek culture and the empowered figure of the Goddess Athena, this eponymous collection draws on the symbols of female strength during that time and crafts them into exquisite, bold designs that capture the exoticism and ferocity of that age. Referencing the values of creativity, independence and wisdom, the designs fuse recognisable elements such as the owl and snake, working with distinctive gemstones and iridescent doublet stones to create bold, original earrings, necklaces and bangles that perfectly capture the duality of fearless femininity in the modern woman.

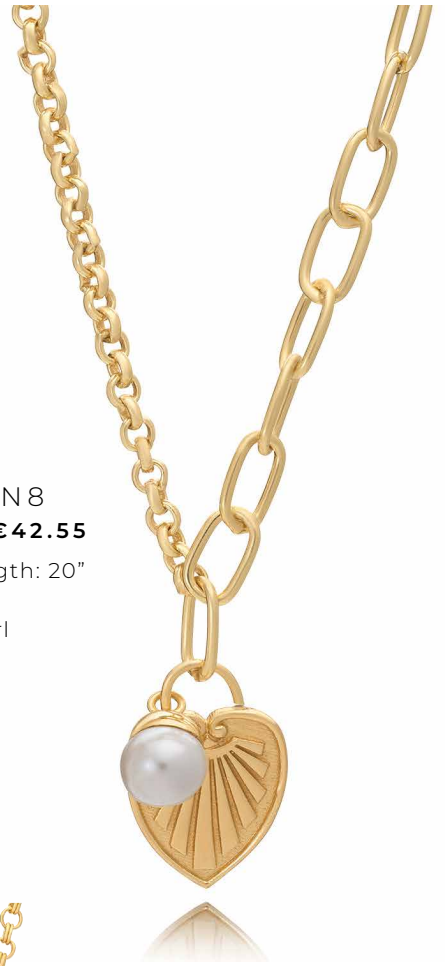

A noticeable progression for this range which marks the wider evolution of the female empowerment movement and the growth of independent women.
