LUXURY LETTERPRESS

All cards are designed by Lizzie Parker. Originally from Suffolk, Lizzie is a professional Graphic Designer based in Bristol with her husband and young family. Each of her letterpress cards sit within a collection, designed to work together or as standalone pieces. All card orders are hand selected and packed to ensure customers always receive the highest quality product either cello wrapped or naked.

Our cards are traditionally pressed by an established printer, The Archivist Press, England. Letterpress is a beautiful technique using gorgeous old machines, it is a true craft. The finished card has a tactile, embossed finish exuding quality with thick paperstock and crisp pressed design.

Many of our ranges are now available on coasters, placemats and mugs which we hope to expand early next year.

We have three ranges of stationery, Correspondence (C6), Wild Cards and Little Notes. Wild Cards are 150mm square and Little Notes are 78mm x 107mm (C7). Each card comes with a 100% recycled brown Kraft envelope packed either inside cellophane bags or naked using a low tack sticker/ smart seal to hold them closed. Our cards are printed onto 100% recycled or part recycled paper stocks of 350-360gsm european paper and letterpress printed in the UK which gives them a gorgeous tactile finish.

The next few pages will take you through my current collections starting with our new homewears. Look out for stickers for our top 40 best sellers and all the new designs for this catalogue.

COASTERS

These high-quality matt coasters are handmade in Lincolnshire, UK with a sustainably sourced Eucalyptus board base, a full melamine surface, and cork backing.

Details:

Withstand temperatures of up to 140 degrees

Easily Wipe clean
