STORY

Following in the creative footsteps of my Photographer Father, I began designing cards from my London studio in 2018. Combining traditional techniques with Contemporary design, the collection is distinguished by its unique hand drawn style and attention to detail. Each card is printed on luxury 300gsm FSC certified board, sustainably sourced from the Lake District. Fabric lines are hand sewn with 100% Cotton and Chopping Boards are made with FSC certified eucalyptus wood and melamine.
