THE SCHOOL OF LIFE

The School of Life is a global organisation helping people to lead more fulfilled lives.

We believe that the journey to finding fulfilment begins with self-knowledge. It is only when we have a sense of who we really are that we can make reliable decisions, particularly around love and work.

Sadly, tools and techniques for developing self-knowledge and finding fulfilment are hard to find – they're not taught in schools, in universities, or in workplaces. Too many of us go through life without ever really understanding what's going on in the recesses of our minds.

That's why we created The School of Life; a resource for helping us understand ourselves, for improving our relationships, our careers and our social lives – as well as for helping us find calm and get more out of our leisure hours.

1 RELATIONSHIPS

It is estimated that 70% of a person's life satisfaction depends on the quality of their relationships. Yet this is an area where we too often get stuck, unable to make ourselves understood or find the sort of love we need.

These tools are designed to help us escape our frustrations, learn to communicate properly and put us on the path to sincere and flourishing relationships.

2 SELF-KNOWLEDGE

THE SCHOOL OF LIFE

In Ancient Greece, when Socrates was asked to summarise all philosophical commandments, he replied: 'Know yourself'. Self-knowledge matters so much because an accurate sense of who we are helps us to make reliable decisions – particularly around love and work.

These tools help us to understand the hard-to-access bits of our minds and to know our deep personalities as well as we can.

Calm has a deep and natural appeal. Most of us long to be more patient, unruffled, at ease and capable of reacting with quiet good humour to life's setbacks and irritants. But if calm is an ocean, most of us are still in the shallows.

These hugely effective tools help us to secure calm on a regular basis and to grow into the serene people we have always longed to be.

6 LEISURE

The School of Life is hugely interested in art, literature, psychology and philosophy – and draws upon these disciplines for its many ideas. It proposes that works of culture were all made, in one way or another, with the idea of improving how we live.

This range of products connects up culture with our own dilemmas and hopes around love, work and our psyches, and invites us to use our leisure time to address the complexities of being human.
