Need some help?

If you have any questions or queries about our products please don't hesitate to let us know.

We're on a mission to make socks a joy to wear. In every sense of the word.

Here at Doris & Dude we believe in three fundamentals...

Comfort

Our feet go through a lot during the day so we think they should be treated like kings. That's why we have spent years perfecting our ultimate supersoft sock recipe to help feet feel fantastic all day long.

Fun

We enjoy the simple things in life: family, exploring nature, family baking, going on adventures and making our own fun. Life's too short for plain white socks. Which is why we weave colour and personality (and a little bit of Cornish sunshine) into every pair we create.

Sustainability

We're rather fond of our planet. So, not only do we use sustainable, organic cotton and recycled fibres in our socks, we also package them with recyclability in mind.

Doris & Dude. Doing our bit for feet. And the planet.
