

PENTIRE®

NATURALLY DISTILLED COASTAL BOTANICALS

Crafted for active living.

VEGAN
PLANT-BASED
NON-ALCOHOLIC

BOTANICAL DISCOVERY

Made by distilling plants native to our headlands in Cornwall, UK.

Pentire is a celebration of unique plant life that grows on the surrounding headland, due to a combination of favourable climate, soil PH, and air moisture. Through research and experimentation with local botanists, distillers and brewers we have created non-alcoholic spirits that capture the botanical range and the flavours they deliver through careful distillation.

‘We are committed to sourcing responsibly. Where possible, we use Fair Trade & Organically Certified ingredients, accredited by the Soil Association.’

The Newt

A person wearing a blue and white patterned sweater is pouring a clear liquid from a bottle labeled 'PENTIRE' into a tall glass filled with ice and a lemon slice. The scene is set outdoors on a wooden table with various items like lemons, a sprig of rosemary, and a copper pot. The background is a blurred outdoor setting.

Pentire continues to be featured by
the national and international press

“Many zero-alcohol offerings can be sickly sweet, which is why this new Cornish spirit is a breath of fresh air... it’s a grown-up, savoury affair with fragrant herbaceousness and salty notes that balance perfectly with tonic water.”
