

MW Home

Ethically sourced
Stoneware, Hand Blown
Glass and Recycled Teak

NO. 02

The founders of MW Home are a quietly creative bunch...a family team with a shared love of home. We grew up around very creative people within the family from Grandad with his macramé skills to Uncle John the Potter; hours spent in the pottery with him and living with his beautiful creations has definitely inspired our range of stoneware.

Our jumping off point when designing any of our own products is thinking about what we would want to have ourselves. Once we have an idea in mind, we usually start to discuss the design with one of our makers, giving them specifications for shapes and colours and communicating back and forth via facetime and messenger while they create our vision.

Although we try not to follow trends, it's inevitable that we will be influenced by them, especially colour trends as we are inspired by so many wonderful brands and taste makers. Every time we release a new collection, it becomes our favourite, there's such a buzz that comes from seeing samples in person for the first time especially when it's a product that you've visualised for so long and it's a great feeling seeing them in your own home (finally after months of waiting) and an even bigger buzz when our customers love what we've created!

We believe that designing and decorating your home isn't just about filling it with products to make it look nice, it's a feeling you get from how everything comes together. It's a story about your personality, about your family. It's not just there to look good, it's lived in, it's home. And that's what we keep in mind when we put our collections together for you!
