ECO-FRIENDLY, HANDCRAFTED ORNAMENTS AND CHRISTMAS BAUBLES!

At Honest, we are focused on preserving and advancing the traditional artisan crafts of Kashmir. In the process we also empower women in Kashmir, by providing fair trade jobs.

PROTECTING OUR PLANET

Protecting Planet earth should be the responsibility of each and every individual. Christmas is currently the most magical time of the year in the UK and other western countries, as it should be a time of looking in, holding our family close and being grateful for the earth and the lives we have, it is important we focus on Sustainable gifts that instead we fill our homes with plastic, and cause so much devastation to the planet. We cannot sustain current use of plastic. It takes 1000 years for one plastic bottle to degrade.

Honest was created with the vision that it is time to hold ourselves accountable, we believe that it shouldn't cost the Earth for us to have pretty adornments in our home and on our Christmas Tree. Our products are eco-friendly, biodegradable and also have value attached to them in the form of a gift or a celebration.

Honest- Love Our Planet has a mission to create something that our valued customers will appreciate, and in buying these products, they will not only help reduce our carbon footprint but will also enhance the lives of so many artisans that possess these special skills to make such special art.

ECO-FRIENDLY, HANDCRAFTED ORNAMENTS AND CHRISTMAS BAUBLES!

At Honest, our fundamental objective is to combat climate change. A beautiful home doesn't have to cost the Earth!

ARTISAN WORK AT HONEST LOVE OUR PLANET

Honest Paper mâché baubles are made by our team of exceptionally skilled artisans. Our products are made from a unique combination of designs and colour which is practiced on a variety of moulded objects. Our artists use the traditional technique to form the products.

This beautiful technique involves the method of mixing paper pulp with water which is later given the shape of the mould. As the pulp is dried, it is removed from the clay mould, giving the desired shape, cut into forms and glued together. Artists then start the decoration of the baubles on the smoothed surface.

The colours used are made from organic pigments (plants and minerals), diluted in water and painted on the surface of the object. Once decorated, the products are then given lacquer coating which protects them from any water damage and gives extra durability.

The finished masterpiece reflects the keen attention to detail and sheer effort put in to producing such extraordinary aesthetic work.

LUXURY BOXES

Luxury 6 Box of Handmade Baubles is a perfect gift for any occasion. The box comes with magnetic flap which protects these intricately designed baubles. Its made from sustainable materials to protect our planet..
