Let's make a difference

As part of our promise to leave the planet a better place, we started this company with a pledge to ensure that we take every step possible to reduce our impact on the planet. All of our products are FSC certified from sustainably managed sources using as much recycled material as possible and are 100% recyclable.

Perfect seal

All our cards are supplied naked with Kard Kласps, which are 100% recyclable. The Kласp mechanism keeps your card and envelope securely in place on your shelves. When the card is purchased the customer simply removes the easy-peel, recyclable seal.

Biodegradable cello bags are also available on request.

Throughout our brochure you will find the below symbols showing you a variety of specifications for each of our ranges.
