

# About

Anna grew up exploring the Scottish countryside and developed her talent whilst studying at Edinburgh College of Art.

Her characterful illustrations are inspired by her love of drawing, colour and textiles alongside the humour she finds in our natural world. These illustrations form the basis of our cards, prints and gifts.

We are a company keen to have a positive impact on our planet and seek to achieve the highest ethical and environmental standards.

We'd love to work with you.

# Cards

Our cards are based on Anna's characterful illustrations, often humorous and sometimes a little cheeky. We believe in the value of sending and receiving a card and try to add a little extra delight through the creativity of our designs.

There are over 180 designs to choose from.

Product details:

- square: 15 cm x 15 cm
- blank inside
- printed in the UK on high quality UK made card stock using vegetable based inks
- supplied with a bespoke high quality UK made envelope with a gold printed bird motif printed on the front
- packaged in a clear biodegradable 'cello'
- some of our cards are embellished with embossed foil details. We use a plastic-free foil provided by a zero-to-landfill manufacturer so that waste material is reused
- recyclable

Cards are supplied in bundles of six per design, held together by a paper band.

## **Soon to come...**

We will soon be updating our envelope design and will be supplying cards held with a sticky paper clasp rather than within a cello.
