

# Tropical Fruits

2022

## SYNOPSIS

Tropical Fruits is a new collection of utilitarian and decorative pieces that carry on with the tropical and exotic theme already started in the Amazônia line. Based on all the artistic and technical knowledge gathered by Bordallo Pinheiro over almost 140 years of work, the treatment given to each piece of fruit is absolutely accurate in terms of shapes, textures and colors.

Avocado, Passion Fruit, Annona, Papaya, Pitaya, Coconut, and Kiwi are reproduced with all their vitality and together they create a light, relaxed and fresh environment.
