

LIVING COLLECTION
2023

MADE IN GERMANY

A NEW LIVING EDITION FROM
FRAAS OF HIGH QUALITY,
CO₂ NEUTRAL, SUSTAINABLE
WOVEN BLANKETS.
LIVING ART MADE FOR YOUR
PLEASURE - MADE TO LAST.

FRAAS
EST. 1880

Willkommen zuhause.

Seit 1880 gilt unsere ganze Leidenschaft den feinen Materialien, die jede Berührung zur reinsten Freude machen, und ihrer sorgfältigen Verarbeitung.

In der neuen LIVING Edition von FRAAS manifestiert sich aufs Neue, was uns seit fünf Generationen auszeichnet: Qualität, Komfort und Design. Jedes Produkt wird in höchster Qualität und mit einem verantwortungsvollen und nachhaltigen Bewusstsein hergestellt - von der Auswahl recycelter Garne bis zur CO₂-neutralen Produktion.

Gelebte Kunst für Ihr Wohlbefinden - made to last.

Welcome home.

Since 1880 all our passion has gone into the meticulous craftsmanship of woven soft accessories that bring pure joy just by touching them.

The new LIVING Edition from FRAAS exhibits the characteristics which have distinguished us for five generations: Quality, comfort, and design. Each product is manufactured to the highest quality, with a responsible & sustainable conscious - from recycled yarn selection to CO₂ neutral production.

Living art made for your pleasure - made to last.

Nachhaltig schön.

Die aktuelle FRAAS LIVING Kollektion ist Teil unserer Sustainability- & Cashmink®-Edition: Sie besteht aus recyceltem Polyester (GRS-zertifiziert, CU 1016249), gemischt mit wiederverwerteter Baumwolle. In der Natur verwandeln sich Raupen in prächtige Schmetterlinge - bei uns entsteht der farbenfrohe Stoff aus leeren PET-Flaschen (Post Consumer). Das recycelte Polyester spart bis zu 53% Energie im Vergleich zur herkömmlichen Produktion und kann selbst wiederverwendet werden. Auch Baumwollreste aus der T-Shirt-Stoffproduktion werden als Grundlage für neue Mode verwendet. Sie werden nach Farben sortiert, geschreddert und zu Garn versponnen, um daraus neue Stoffe zu gewinnen.

Sustainably beautiful.

The current FRAAS LIVING collection is part of our Sustainability & Cashmink® Edition: it is made of recycled polyester (GRS-certified, CU 1016249) blended with reclaimed cotton. In nature, caterpillars turn into magnificent butterflies - with us, colourful fabric is created from empty P.E.T. bottles (post consumer). The recycled polyester saves up to 53% energy compared to conventional production and can itself be reused. Leftover cotton material from T-shirt fabric production is also used as the basis for brand-new fashion. It is sorted by colour, shredded and spun into yarn to make new fabric.
