The Evolution of Art

We are Rh45 and we are the Evolution of Art!

OUR STORY

We had such a passion for art and so many ideas of pictures that we wanted to bring to life. We had seen so many pictures and saw how we could make them better, So We started, as a couple, making pictures in our spare bedroom in our house. They started selling! Eventually, we had to rent a house with a triple garage, where we had more room to manufacture our art – laying them out on the drive on nice days to dry!

Eventually, while on holiday with the Children in Rhodes, we decided to form our business properly. We were trying to find a name that suited Rhodes (the place we decided to form it) and found that Rhodium is one of the strongest and most precious metals in the world. Indestructible and all around us. Its element name on the periodic table is Rh45! And there our company was born.

From here, we moved our production to a warehouse, we started out making every single element ourselves, then took on trusted friends and family, that would share our passion and have the same vision as ourselves. Training them, to take on the same techniques as ourselves with the liquid art – so that every picture leaves our warehouse with the same quality as we first started out with.

Every element of our pictures is made in-house – In West Yorkshire, England. Every single frame, print and embellishment.

We are a family run business and see our staff as friends – we work together as a team!

We commission and work with real life artists Artist, Graphic Designers and Photographers to create the images from our minds as well as working with their existing profiles. Therefore, our pictures cannot be seen anywhere else. They are unique to Rh45.

Unlike other picture companies, we are loyal. We will not supply two stockists in the same town – so you can feel secure that you will be the only supplier of our product in your area.

We are the Evolution of Art – continually striving for new and exciting Images. We are not just a picture company -

-We are a Brand and we are in Demand! -
