THE POPULAR

The Popular is a revolutionary new marketplace platform that has been founded and managed by the UK-based K&P Global Ltd. This innovative platform was created to provide an efficient way for wholesalers from the UK and all over the world to connect with furniture manufacturers from Vietnam. The aim of The Popular is to help businesses communicate, secure transactions, ensure quality as well as maintain timely delivery schedules. All of this can be done in one convenient place without having to spend a lot of time or money searching for suitable vendors.

At The Popular, our goal is to bring high-quality, affordable furniture to our customers through our platform, where buyers and sellers can communicate and exchange transactions, effectively saving time and money while reducing the risk of fraud. Everyone should have access to beautiful, well-made furniture.

We work with highly talented designers and manufacturers who can deliver from traditional and contemporary styles to bespoke and tailored-made orders.

We are looking forward to having you on board!
