## EXTRAS

Packaging & Signage 89

Freckleface started on the kitchen table in 2017 as a way of showing Noah (14) how a business works as he's always been a little entrepreneur. We began making candles and wax melts as gifts for friends and family and our business has grown organically from there.

As a family we have built a brand that has 4 stores on high streets throughout the UK, a successful online shop and is stocked in over 600 shops and garden centres.

We decided early on that the business needed to be a brand we could be proud of with ethically sourced products, plastic free packaging and a family feel to the business so it's a place to lead the way to new generations to operate with kindness and respect for our team and the planet.

Thank you so much for supporting our business and following our journey as we grow the brand and establish ourselves in the world of lifestyle products.

## All Year Round Fragrances

Our botanical soya wax melts have amazing throw power & will fill a whole room with fragrance for 20hrs per melt. That's 2.5 times longer than most other brands. We strive to create products that are clean and free of toxins. We are extremely proud that we produce eco-friendly wax melts that are not detrimental to the environment, or to the health of our customers.

Individually hand-poured in our Lincolnshire workshop, our botanical wax melts have a natural feel with a sophisticated edge. All of our wax melts are sold in ready-to-display boxes of 100. Simply open the lid of the box to display the fragrance that is within the box.

### RHS Botanics Range

Bring the scents of the garden into your home with this modern apothecary range of home fragrance. Perfect for the modern urban gardener to sit alongside houseplants and gifts.

### RHS Heritage Range

We are delighted to bring you four traditional scents based on the seasons of an English garden. Timeless and elegant fragrances that are true to nature.

The illustrations for the RHS Home Fragrance range are taken from the engraved plates by Christian Gottlieb Geissler (1729-1814), who was a German-Swiss botanical illustrator. Geissler is probably best known for illustrating *Tabulae Phytographicae*, an encyclopaedic work published by the Zurich naturalist Johannes Gessner. Geissler's work can be found in the RHS Lindley Collections.

HISTORIC ROYAL PALACES

FRECKLEFACE

## FRECKLEFACE COLLABORATES WITH HISTORIC ROYAL PALACES.

Freckleface in collaboration with the independent charity Historic Royal Palaces have created a unique range of candles and home fragrance products. This range has been designed to capture the essence of the palaces' rich history, combined with Freckleface's craftsmanship in sustainable scent production.

The new collection has been inspired by the grandeur and stories of some of the historic sites in Historic Royal Palaces' care such as the Tower of London, Hampton Court Palace, and Kensington Palace. Each scent in the range has been meticulously crafted to reflect the atmosphere and character of these remarkable locations. The range features hand crafted products that evoke the sensory experience of stepping into a palace, whether it's the scent of historic wood panelling, opulent interiors or the magnificent palace gardens.

All of the products are eco-friendly and made with premium ingredients and plastic free packaging.

# A LUXURIOUS COLLECTION OF HOME FRAGRANCES.

Available in three fragrances...

## ROYAL BOUQUET ORANGE BLOSSOM AND MYRTLE

A fresh orange blossom scent with subtle hints of florals and aromatic myrtle. A flower that symbolises love and hope, and has been included in every royal bridal bouquet, since Queen Victoria first carried myrtle in her wedding bouquet in 1840.

## PALACE GARDEN ROSE AND HYDRANGEA WITH VANILLA

An authentic scent inspired by the Rose Garden at Hampton Court Palace. A glorious blend of sweet, freshly picked, powdery English roses and the finest hydrangea blooms. Fragrance your home with these beautiful floral notes, inspired by a royal summer garden.

## ROYAL NIGHTS SMOKED OUD AND BERGAMOT

An opulent scent of oud with fresh citrus notes of bergamot, to encapsulate the palaces sparkling by candlelight. Inspired by stories of William Shakespeare and his Company of Players, performing 'A Midsummer Night's Dream' in the Great Hall at Hampton Court Palace.

We are mindful of our carbon footprint and try to minimise paper waste to do our bit for the environment. This is why we do not currently have reps/agents on the road, we have an in-house Trade team that supports our stockists. Please contact them with any enquiries that you may have.

We try not to print our catalogue too regularly as it is updated with new products all of the time and therefore has a short shelf life. We have created a digital version of the catalogue that you can download and our product range can be viewed online on the trade website.
