HANDCRAFTED BY ARTISANS, WITH LOVE

TWO

AUTUMN WINTER 2025

Leaves crisp under your feet, you seek the warm light, now softened.
In a chilly breeze you catch scents of cinnamon, pine cones,
and plump pumpkins.

You are enlivened by glowing hearth, red wine shared over hearty
banter, tones of heart-warming haldi yellow and merry kumkum reds.

In the House of Ecoveeve,
this season is an opulent celebration,
of circularity.

Adorned by autumnal aromas, rooted in Earth,
Handcrafted with nature's purest, tinted in nature's hues of the season,
Circular in form, and spirit,
Artisanal craft passed on over generations,
Innovatively reimagined through seasons, creations
that will eventually return gently to our Earth,

Born from the hands of artisans in Sanganer, Rajasthan,

With love

About Tanya

Tanya always had a shifting sense of home, being from a family that migrated from place to place. Everywhere they went, they made their home a haven by filling it with art and meaningful expressions of culture. Growing up in India and moving to the UK deepened her connection to the cultural traditions of her country. In England she became intrigued by the aesthetics of traditional English cottages, with its slow pace of life and rustic yet charming decor that exuded the warmth she was seeking.

Her brand, Ecoveeve, was born as a way to share what brought her comfort, with other people. Tanya dreams of a world where traditions that have been handed down through generations, are appreciate. She feels arts and crafts are inherently one with nature, mimicking nature's expressions of beauty, and these timeless pieces are designed to become a part of the stories we tell, the memories we share, and the emotions we want to pass down to future generations.
