

# Welcome!

At Grace Jackson Design, we take pride in creating timeless stationery that blends beauty and sustainability. From our Cambridgeshire studio, each greeting card, notebook, pencil case, and gift wrap is thoughtfully designed and all cards are brought to life on a traditional hot foil press. Our passion for patterns, colours, and subtle details shines through every piece, accentuated by exquisite hot foil finishes.

We're committed to crafting products that are as sustainable as they are elegant. Using FSC-certified paper stocks, our greeting cards are fully recyclable and even compostable, thanks to our participation in the Zero Foil to Landfill scheme. This initiative ensures that foil waste from our studio is converted into Solid Recovered Fuel (SRF), reducing reliance on fossil fuels.

Every item in our collection is proudly UK-made, supporting local manufacturers while maintaining exceptional quality. We're thrilled to introduce our

latest ranges and hope they inspire you to bring the beauty of Grace Jackson Design to your shop.

2025 has been another exciting year for Grace Jackson Design, shaped by growth, creativity, and collaboration. We've exhibited at three trade shows, launched over 100 new designs, and taken big steps internationally with new distribution and licensing opportunities. We were thrilled to welcome an agent covering the North West, making it even easier for retailers in the region to browse our collections. Winning the SME UK Enterprise Award for Best Greeting Card Company in East Anglia was a proud highlight — and one we couldn't have achieved without the support of our brilliant stockists. Thank you for being part of the journey — here's to a successful year ahead!
