Welcome to our

# AUTUMN/WINTER '26 COLLECTION

There's something about the shift into autumn and winter that always feels a little bit magical. A season made for gathering, from longer lunches to candlelit dinners and those spontaneous moments around the table.

Thank you for continuing to champion our move into more reusable homewares and thoughtfully designed pieces. Seeing how you've brought our collections to life in-store over the past year has been incredibly special.

For Autumn Winter 2026, we've built on that momentum with collections designed to feel both elevated and effortless. Expect richer colours, playful yet refined details and versatile pieces made for both everyday hosting and standout displays.

This season, we're also embracing celebration in new ways. Our Christmas baking collection adds a playful twist to festive traditions, while our new character candelabras bring personality and theatre to seasonal tables. Alongside this, we've expanded our larger format, long lunch napkin range, in ready-to-go POS units to help create impactful, easy in-store displays.

As always, thank you for being such an important part of our journey. We can't wait to see how you bring this season to life.
